

Final Assessment – Class 24 (Class V)

Final Assessment

Learning Objectives

After completing the Final Assessment, students will be able to:

- Demonstrate the knowledge and skills learned throughout the course.
 - Apply computer, digital, communication, and mathematical concepts in practical situations.
 - Perform hands-on activities confidently and accurately.
 - Solve problems using logical thinking and communication skills.
 - Showcase creativity, teamwork, and presentation abilities.
 - Identify strengths and areas for further improvement.
-

Assessment Overview

The Final Assessment evaluates students in both **Theory** and **Practical** components based on all five chapters covered during the course.

Theory Assessment

Chapter 1: Computer Skills

Topics Covered

- Computer Fundamentals
 - Hardware Devices
 - Computer System
 - Input, Output & Storage Devices
 - Computer Care
 - Digital Ethics
 - Responsible Technology Use
-

Chapter 2: Typing Skills

Topics Covered

- Keyboard Layout
 - Home Row Keys
 - Finger Placement
 - Typing Words & Sentences
 - Capital Letters
 - Punctuation
 - Typing Accuracy
 - Typing Speed
 - Typing Etiquette
-

Chapter 3: Digital Awareness

Topics Covered

- Technology Around Us
 - Smart Devices
 - Digital Services
 - Email
 - Video Conferencing
 - Online Learning
 - Cyber Safety
 - Strong Passwords
 - Safe Internet Practices
 - Artificial Intelligence (AI)
 - Technology in Education, Banking, Healthcare, Agriculture & Transportation
-

Chapter 4: English Communication

Topics Covered

- Greetings
- Self-Introduction
- Everyday Conversation
- Vocabulary Building
- Sentence Formation
- Pronunciation

- Reading Comprehension
 - Storytelling
 - Public Speaking
 - Communication Skills
-

Chapter 5: Mathematics Logic

Topics Covered

- Number Patterns
 - Number Sequences
 - Logical Reasoning
 - Visual Puzzles
 - Brain Teasers
 - Mental Mathematics
 - Strategy Games
 - Problem Solving
-

Assessment Pattern

Section	Marks
Computer Skills	20
Typing Skills	20
Digital Awareness	20
English Communication	20
Mathematics Logic	20
Total Theory Marks	100

Question Types

- Multiple Choice Questions (MCQs)
- Fill in the Blanks
- Match the Following
- True or False
- Short Answer Questions
- Picture Identification
- Logical Reasoning Questions

Assessment Guidelines

Students should:

- Read each question carefully.
 - Answer all questions.
 - Write neatly and clearly.
 - Manage time effectively.
 - Check answers before submitting.
-

Preparation Tips

- Revise all chapters.
 - Practice typing regularly.
 - Read English passages aloud.
 - Solve logic puzzles daily.
 - Review cyber safety and computer concepts.
 - Practice mental mathematics.
-

Learning Outcomes

After completing the Final Theory Assessment, students will be able to:

- Demonstrate comprehensive knowledge of **Computer Skills, Typing Skills, Digital Awareness, English Communication, and Mathematics Logic**.
- Apply concepts learned throughout the course to answer theoretical and reasoning-based questions.
- Show improved understanding, confidence, and readiness for higher-level learning.
