

Final Assessment – Class 24

Theory: Computer Skills, Typing Skills, Digital Awareness, English Communication & Mathematics Logic

Learning Objectives

After completing the Final Theory Assessment, students will be able to:

- Demonstrate their understanding of all concepts learned throughout the course.
 - Apply computer, digital, communication, and mathematical knowledge to solve theoretical questions.
 - Recall important facts, definitions, and practical concepts.
 - Strengthen logical thinking, reading comprehension, and problem-solving skills.
 - Prepare confidently for higher-level learning.
-

Section A: Computer Skills

Topics Covered

- Computer Fundamentals
 - Parts of a Computer System
 - Hardware Devices
 - Input Devices
 - Output Devices
 - Storage Devices
 - Uses of Computers
 - Computer Care
 - Digital Ethics
 - Responsible Technology Use
-

Section B: Typing Skills

Topics Covered

- Keyboard Layout
- Home Row Keys
- Finger Placement

- Typing Words
 - Sentence Typing
 - Capital Letters
 - Punctuation Marks
 - Typing Accuracy
 - Typing Speed
 - Typing Etiquette
-

Section C: Digital Awareness

Topics Covered

- Technology Around Us
 - Smart Devices
 - Digital Services
 - Email Basics
 - Video Conferencing
 - Online Learning
 - Cyber Safety
 - Strong Passwords
 - Safe Internet Practices
 - Artificial Intelligence (AI)
 - Smart Technology
 - Technology in Education, Healthcare, Banking, Agriculture & Transportation
 - Digital Citizenship
-

Section D: English Communication

Topics Covered

- Greetings
- Self-Introduction
- Everyday Conversations
- Vocabulary Building
- Sentence Formation
- Pronunciation
- Reading Comprehension
- Storytelling
- Public Speaking
- Conversation Skills

- Listening Skills
 - Communication Etiquette
-

Section E: Mathematics Logic

Topics Covered

- Number Patterns
 - Number Sequences
 - Skip Counting
 - Even and Odd Numbers
 - Logical Reasoning
 - Visual Puzzles
 - Brain Teasers
 - Mental Mathematics
 - Strategy Games
 - Problem Solving
 - Critical Thinking
 - Mathematical Reasoning
-

Question Pattern

Students may be asked to answer questions in the following formats:

- Multiple Choice Questions (MCQs)
 - Fill in the Blanks
 - Match the Following
 - True or False
 - Picture Identification
 - Short Answer Questions
 - Logical Reasoning Questions
 - Reading Comprehension Questions
 - Problem-Solving Questions
-

Assessment Guidelines

Students should:

- Read every question carefully before answering.
 - Answer all questions neatly and clearly.
 - Use correct spelling and grammar where required.
 - Show mathematical steps wherever necessary.
 - Manage time effectively during the assessment.
 - Review all answers before submitting the paper.
-

Assessment Marks Distribution

Subject	Marks
Computer Skills	20
Typing Skills	20
Digital Awareness	20
English Communication	20
Mathematics Logic	20
Total Marks	100

Preparation Tips

- Revise all five chapters thoroughly.
 - Practice typing with correct finger placement and accuracy.
 - Read English passages aloud to improve pronunciation and fluency.
 - Solve number patterns, puzzles, and mental mathematics questions daily.
 - Review cyber safety rules and responsible digital citizenship.
 - Practice communication skills through speaking and reading activities.
-

Expected Learning Outcomes

After completing the **Final Theory Assessment**, students will be able to:

- Demonstrate a comprehensive understanding of **Computer Skills, Typing Skills, Digital Awareness, English Communication, and Mathematics Logic**.
- Apply theoretical knowledge to answer different types of questions accurately.
- Use logical thinking, communication skills, and problem-solving strategies effectively.
- Show confidence, accuracy, and independent learning while completing the assessment.
- Demonstrate readiness to progress to the next level of learning with strong foundational knowledge.
