

Final Assessment – Class 24

Practical Assessment

Topic: Picture Identification, Typing Assessment, Digital Awareness Quiz, English Speech, Mathematics Logic Worksheet & Team Presentation

Activity 1: Picture Identification (5 Minutes)

Objective

To assess students ability to identify computer hardware, digital devices, smart technology, and their uses through picture-based activities.

Materials Required

- Picture Flashcards
- Computer Device Charts
- Smart Device Images
- Whiteboard & Marker
- Assessment Worksheet

Instructions

1. The teacher displays one picture at a time.
2. Students identify the object and state its name.
3. Students explain its purpose or use in one or two sentences.
4. Award marks for correct identification and explanation.
5. Review the answers with the class.

Sample Pictures

- Monitor
- Keyboard
- Mouse
- CPU
- Printer
- Scanner

- Webcam
- Tablet
- Smartphone
- QR Code

Assessment Criteria

- ✓ Correct Identification
 - ✓ Correct Usage Explanation
 - ✓ Confidence
 - ✓ Participation
 - ✓ Observation Skills
-

Activity 2: Typing Assessment (5 Minutes)

Objective

To evaluate typing speed, accuracy, finger placement, and keyboard usage.

Materials Required

- Computer/Laptop
- Typing Software
- Keyboard
- Timer
- Typing Assessment Sheet

Instructions

1. Students sit at individual computers.
2. The teacher provides a short paragraph.
3. Students type the paragraph within **5 minutes**.
4. The teacher evaluates speed, accuracy, capitalization, punctuation, and finger placement.
5. Discuss areas for improvement after the assessment.

Typing Practice Paragraph

Computers make learning easy and enjoyable. We should use technology safely and responsibly. Daily typing practice helps improve speed, accuracy, and confidence while using a computer.

Assessment Criteria

- ✓ Typing Speed
 - ✓ Typing Accuracy
 - ✓ Finger Placement
 - ✓ Capital Letters
 - ✓ Punctuation
-

Activity 3: Digital Awareness Quiz (5 Minutes)

Objective

To assess students understanding of digital technology, cyber safety, AI, and responsible digital citizenship.

Materials Required

- Quiz Cards
- Whiteboard
- Scoreboard
- Digital Awareness Worksheet

Instructions

1. Conduct the quiz individually or in teams.
2. Ask one question at a time.
3. Give students **30 seconds** to answer.
4. Award points for each correct response.
5. Review the correct answers together.

Sample Quiz Questions

1. What is a smart device?
2. What is a strong password?
3. Why should we never share personal information online?
4. Name one example of Artificial Intelligence.
5. What is a QR Code used for?
6. What does email help us do?
7. Why is cyber safety important?
8. Name one online learning platform.
9. What should you do before downloading a file?
10. How can technology help students?

Assessment Criteria

- ☒ Digital Knowledge
 - ☒ Cyber Safety Awareness
 - ☒ Accuracy
 - ☒ Confidence
 - ☒ Participation
-

Activity 4: English Speech (5 Minutes)

Objective

To evaluate students' communication, pronunciation, fluency, and public speaking skills.

Materials Required

- Speech Topic Cards
- Timer
- Teacher Evaluation Sheet

Instructions

1. Each student selects one topic.
2. Allow **1 minute** for preparation.
3. Students deliver a **1–2 minute speech**.

4. Encourage clear pronunciation, eye contact, and confidence.
5. The teacher provides feedback after each presentation.

Suggested Speech Topics

- My School
- My Family
- My Favorite Teacher
- My Best Friend
- Save Nature
- Healthy Habits
- Importance of Reading
- My Hobby

Assessment Criteria

- ☒ Fluency
 - ☒ Pronunciation
 - ☒ Confidence
 - ☒ Eye Contact
 - ☒ Voice Clarity
 - ☒ Body Language
-

Activity 5: Mathematics Logic Worksheet (5 Minutes)

Objective

To assess students logical reasoning, mental mathematics, and problem-solving skills.

Materials Required

- Mathematics Logic Worksheet
- Pencil & Eraser
- Whiteboard
- Teacher Answer Key

Instructions

1. Distribute the worksheet to all students.
2. Students complete the questions independently.
3. Review the answers together after completion.
4. Discuss different methods of solving the problems.
5. Provide feedback on accuracy and reasoning.

Worksheet Activities

Complete the Pattern

5, 10, 15, _____, 25

Mental Mathematics

$45 + 35 =$ _____

Odd One Out

Apple – Mango – Banana – Bus

Arrange in Ascending Order

52, 18, 34, 76

Problem Solving

A shop has **120 pencils**. It sells **45 pencils**. How many pencils are left?

Assessment Criteria

- ☒ Logical Thinking
- ☒ Accuracy
- ☒ Problem-Solving

✓ Mental Mathematics

✓ Independent Work

Activity 6: Team Presentation (5 Minutes)

Objective

To evaluate teamwork, communication, presentation, and collaboration skills by presenting concepts learned during the course.

Materials Required

- Chart Paper
- Marker Pens
- Flashcards
- Presentation Topic Cards

Instructions

1. Divide the class into **4–5 teams**.
2. Assign one topic to each team.
3. Give **5 minutes** to prepare a short presentation.
4. Each team presents for **2–3 minutes**.
5. Encourage every team member to speak.

Presentation Topics

- Computer Safety
- Smart Technology
- Cyber Safety
- Good Communication Skills
- Number Patterns in Daily Life
- Responsible Digital Citizenship

Assessment Criteria

✓ Teamwork

✓ Communication Skills

✓ Presentation Skills

- ✓ Creativity
 - ✓ Subject Knowledge
 - ✓ Equal Participation
-

Practical Assessment Summary

Activity	Skills Assessed
Picture Identification	Computer Knowledge & Observation
Typing Assessment	Speed, Accuracy & Keyboard Skills
Digital Awareness Quiz	Digital Knowledge & Cyber Safety
English Speech	Communication & Public Speaking
Mathematics Logic Worksheet	Logical Thinking & Problem-Solving
Team Presentation	Teamwork, Creativity & Communication

Expected Learning Outcomes

After completing the **Final Practical Assessment**, students will be able to:

- Identify computer hardware, smart devices, and digital technologies with confidence.
- Demonstrate accurate typing skills using proper finger placement, speed, and punctuation.
- Apply digital awareness concepts, including cyber safety, responsible technology use, and AI awareness.
- Deliver short English speeches with clear pronunciation, confidence, and effective communication.
- Solve mathematical logic problems using reasoning, mental mathematics, and analytical thinking.
- Work collaboratively in team presentations while demonstrating leadership, creativity, communication, and presentation skills.
