

Chapter 1: Computer Skills

Class 2: Practical / Activities (20 Minutes)

Topic: Input, Output & Storage Device Sorting Game, Device Classification Worksheet & Team Activity

Activity 1: Input, Output & Storage Device Sorting Game (5 Minutes)

Objective

To help students identify and classify computer devices as **Input, Output, or Storage Devices** through an engaging hands-on activity.

Materials Required

- Picture Cards of Computer Devices
- Three Sorting Boxes/Baskets labeled:
 - **Input Devices**
 - **Output Devices**
 - **Storage Devices**
- Flashcards
- Whiteboard & Marker

Instructions

1. The teacher displays one device card at a time.
2. Students identify the device.
3. One student places the card into the correct category box.
4. The class discusses why the device belongs to that category.
5. Continue until all cards have been sorted.

Devices for Sorting

Input Devices

- Keyboard
- Mouse

- Scanner
- Microphone
- Webcam

Output Devices

- Monitor
- Printer
- Speakers
- Projector
- Headphones

Storage Devices

- Hard Disk
- SSD
- Pen Drive
- Memory Card
- CD/DVD

Teacher Observation Checklist

- ☐ Correctly identifies the device.
 - ☐ Classifies the device correctly.
 - ☐ Explains the device's function.
 - ☐ Participates actively.
 - ☐ Demonstrates confidence.
-

Activity 2: Device Classification Worksheet (5 Minutes)

Objective

To reinforce students understanding of computer device categories through an individual worksheet activity.

Materials Required

- Device Classification Worksheet
- Pencil and Eraser
- Device Picture Sheet

Instructions

1. Provide each student with the worksheet.
2. Students observe each device picture.
3. Write the device name.
4. Tick the correct category:
 - Input Device
 - Output Device
 - Storage Device
5. Complete the worksheet independently.
6. Review the answers together.

Worksheet Sample

Device	Input	Output	Storage
Keyboard	✓		
Monitor		✓	
Pen Drive			✓
Mouse	✓		
Printer		✓	
Memory Card			✓
Scanner	✓		
Speakers		✓	

Teacher Observation Checklist

- ☐ Identifies devices correctly.
 - ☐ Classifies devices accurately.
 - ☐ Completes the worksheet independently.
 - ☐ Uses neat handwriting.
 - ☐ Finishes within the allotted time.
-

Activity 3: Team Device Classification Challenge (5 Minutes)

Objective

To encourage teamwork while improving students knowledge of computer devices and their functions.

Materials Required

- Device Flashcards
- Team Scoreboard
- Category Posters
- Sticky Notes

Instructions

1. Divide the class into **3–4 teams**.
2. Each team receives a set of device flashcards.
3. Teams sort the cards into:
 - Input Devices
 - Output Devices
 - Storage Devices
4. After sorting, one team member explains the function of each device.
5. Award one point for each correct answer.
6. Appreciate all teams for participation.

Challenge Questions

- Which device is used for typing?
- Which device displays information?
- Which device stores files?
- Which device records sound?
- Which device prints documents?
- Which device is used to scan photographs?
- Which storage device is portable?

Teacher Observation Checklist

- ☐ Works cooperatively with teammates.
- ☐ Correctly sorts the devices.

- ☐ Explains functions confidently.
 - ☐ Participates actively.
 - ☐ Demonstrates problem-solving skills.
-

Activity 4: Device Function Relay Game (5 Minutes)

Objective

To strengthen students understanding of computer devices through a fun and interactive relay game.

Materials Required

- Device Name Cards
- Function Cards
- Whiteboard
- Timer

Instructions

1. Divide students into two teams.
2. Place **Device Cards** on one table and **Function Cards** on another.
3. One student from each team runs to pick a device card.
4. The student matches it with the correct function card.
5. The next teammate continues until all cards are matched.
6. The team with the most correct matches wins.

Sample Device & Function Matching

Device	Function
Keyboard	Used to type letters, numbers, and symbols
Mouse	Used to move the pointer and select items
Monitor	Displays text, images, and videos
Printer	Prints documents on paper
Scanner	Converts paper documents into digital form
Speakers	Play sound and music
Hard Disk	Stores data permanently

Device	Function
Pen Drive	Stores and transfers files

Teacher Observation Checklist

- ☐ Matches devices with the correct functions.
- ☐ Understands the purpose of each device.
- ☐ Participates enthusiastically.
- ☐ Completes the activity accurately.
- ☐ Demonstrates teamwork and confidence.

Practical Time Distribution

Activity	Duration
Input, Output & Storage Device Sorting Game	5 Minutes
Device Classification Worksheet	5 Minutes
Team Device Classification Challenge	5 Minutes
Device Function Relay Game	5 Minutes
Total Practical Time	20 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Identify common **input, output, and storage devices**.
- Classify computer devices into the correct categories.
- Explain the functions of different computer devices.
- Apply their knowledge through worksheets, games, and team-based activities.
- Work collaboratively while improving observation, communication, and problem-solving skills.
- Develop a stronger understanding of how computer devices are used in everyday life.
