

Chapter 1: Computer Skills

Class 3: Practical / Activities (20 Minutes)

Topic: Computer Care Checklist, Digital Ethics Role Play, Responsible Technology Discussion & Safety Poster Activity

Activity 1: Computer Care Checklist (5 Minutes)

Objective

To help students understand the importance of taking care of computers and following good computer lab practices.

Materials Required

- Computer Care Checklist Worksheet
- Computer/Laptop (Demonstration)
- Whiteboard & Marker
- Pencil and Eraser

Instructions

1. The teacher demonstrates the correct way to use a computer.
2. Discuss the importance of keeping computers clean and safe.
3. Distribute the **Computer Care Checklist** to each student.
4. Students tick the correct computer care practices.
5. Review the checklist together and discuss why each rule is important.

Computer Care Checklist

Computer Care Rule	✓
Wash hands before using the computer.	☐
Sit with proper posture.	☐
Use the keyboard and mouse gently.	☐
Keep food and drinks away from the computer.	☐

Computer Care Rule

- Save your work regularly. ☐
- Shut down the computer properly. ☐
- Keep the computer desk clean. ☐
- Report damaged equipment to the teacher. ☐

Teacher Observation Checklist

- ☐ Follows computer care rules correctly.
 - ☐ Understands safe computer handling.
 - ☐ Completes the checklist independently.
 - ☐ Participates in classroom discussion.
 - ☐ Demonstrates responsible behaviour.
-

Activity 2: Digital Ethics Role Play (5 Minutes)

Objective

To help students understand digital ethics and demonstrate responsible behavior while using technology.

Materials Required

- Situation Cards
- Role Play Cards
- Flashcards
- Whiteboard

Instructions

1. Divide the class into small groups.
2. Give each group one digital ethics situation card.
3. Students perform a short role play showing the correct behaviour.
4. After each role play, discuss the lesson learned.

Sample Role Play Situations

- Asking permission before using someone else's computer.
- Never sharing passwords with friends.
- Being polite during an online class.
- Reporting inappropriate online content to a teacher.
- Respecting others while chatting online.
- Using school computers only for learning.

Discussion Questions

- What was the correct action?
- Why is it important?
- How can we become good digital citizens?

Teacher Observation Checklist

- ☐ Demonstrates responsible online behavior.
 - ☐ Participates confidently.
 - ☐ Understands digital ethics.
 - ☐ Communicates respectfully.
 - ☐ Works well with group members.
-

Activity 3: Responsible Technology Discussion (5 Minutes)

Objective

To encourage students to think about safe, responsible, and balanced use of technology in everyday life.

Materials Required

- Discussion Cards
- Whiteboard
- Chart Paper
- Marker

Instructions

1. Begin a classroom discussion on responsible technology use.
2. Ask students to share examples from home and school.
3. Write key ideas on the board.
4. Encourage every student to participate.

Discussion Topics

- Why should we use computers responsibly?
- How can we stay safe online?
- Why shouldn't we share personal information?
- What makes a strong password?
- Why is it important to limit screen time?
- How can technology help us learn?

Teacher Observation Checklist

- ☐ Shares ideas confidently.
 - ☐ Listens respectfully to others.
 - ☐ Understands responsible technology use.
 - ☐ Participates actively.
 - ☐ Answers questions correctly.
-

Activity 4: Computer Safety Poster Activity (5 Minutes)

Objective

To develop awareness of computer safety and digital responsibility through a creative poster-making activity.

Materials Required

- A4 Drawing Sheet
- Color Pencils/Crayons
- Sketch Pens

- Pencil and Eraser

Instructions

1. Ask students to create a poster on "**Computer Safety**" or "**Be a Good Digital Citizen.**"
2. Encourage students to include drawings, symbols, and short safety messages.
3. Display completed posters in the classroom.
4. Invite a few students to explain their posters.

Poster Ideas

- Keep Your Password Safe.
- Think Before You Click.
- Be Kind Online.
- Protect Personal Information.
- Use Computers Carefully.
- Follow Computer Lab Rules.
- Balance Screen Time with Outdoor Activities.

Teacher Observation Checklist

- ☐ Creates a neat and attractive poster.
- ☐ Includes correct safety messages.
- ☐ Demonstrates creativity.
- ☐ Explains the poster confidently.
- ☐ Completes the activity on time.

Practical Time Distribution

Activity	Duration
Computer Care Checklist	5 Minutes
Digital Ethics Role Play	5 Minutes
Responsible Technology Discussion	5 Minutes
Computer Safety Poster Activity	5 Minutes
Total Practical Time	20 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Follow proper **computer care and maintenance** practices.
- Demonstrate **digital ethics** and responsible behavior while using technology.
- Explain the importance of **online safety, privacy, and responsible technology use**.
- Create informative posters promoting **computer safety and digital citizenship**.
- Participate confidently in discussions, role plays, and collaborative classroom activities.
- Develop positive digital habits and become responsible, safe, and respectful users of technology.
