

Chapter 2: Typing Skills

Class 8 – Revision, Speed Challenge & Assessment

Learning Objectives

After completing this lesson, students will be able to:

- Revise all the typing concepts learned in the chapter.
 - Demonstrate correct keyboard layout knowledge and finger placement.
 - Improve typing speed while maintaining accuracy.
 - Apply proper typing techniques and etiquette.
 - Complete a typing assessment confidently.
 - Identify areas for improvement through self-assessment and teacher feedback.
-

Introduction

This lesson is a **revision and assessment session** designed to reinforce all the typing skills learned in **Chapter 2**. Students will review keyboard layout, home row keys, finger placement, typing techniques, speed, accuracy, and typing etiquette through interactive activities and practical assessments.

Revision of Keyboard Layout

Students revise the different sections of the keyboard.

Keyboard Sections

- Alphabet Keys
- Number Keys
- Function Keys
- Navigation Keys
- Numeric Keypad
- Special Keys

Important Keys

- Spacebar
 - Enter
 - Backspace
 - Shift
 - Caps Lock
 - Tab
 - Delete
 - Arrow Keys
-

Revision of Home Row Keys

Students revise the correct finger positions.

Home Row Keys

Left Hand

- A
- S
- D
- F

Right Hand

- J
- K
- L
- ;

Thumbs

- Spacebar

Students practice placing their fingers correctly before typing.

Revision of Finger Placement

Students revise:

- Correct finger placement

- Finger movement
 - Typing without looking at the keyboard
 - Proper hand positioning
 - Correct use of both hands
-

Revision of Typing Rules

Students review the following rules:

- Sit with proper posture.
 - Keep your eyes on the screen.
 - Use the correct fingers for each key.
 - Press keys gently.
 - Leave one space between words.
 - Use capital letters correctly.
 - Use punctuation marks properly.
 - Review your work after typing.
-

Word Typing Practice

Students practice typing common words.

Practice Words

- Computer
 - Keyboard
 - Technology
 - Student
 - School
 - Education
 - Learning
 - Internet
 - Accuracy
 - Practice
-

Sentence Typing Practice

Students type complete sentences using proper capitalization and punctuation.

Practice Sentences

- Computers make learning easy.
 - Practice improves typing speed.
 - Accuracy is important while typing.
 - We should use computers responsibly.
 - The keyboard is an input device.
 - Good posture helps us type comfortably.
 - Learning computer skills is fun.
-

Typing Speed Assessment

Students complete a **1-minute typing test**.

Assessment Criteria

- Words Per Minute (WPM)
 - Typing Accuracy
 - Correct Finger Placement
 - Proper Spacing
 - Use of Capital Letters and Punctuation
-

Typing Accuracy Assessment

Students type a paragraph and check for:

- Spelling mistakes
- Missing words
- Incorrect punctuation
- Capitalization errors
- Extra or missing spaces

Teacher discusses common mistakes and correction methods.

Keyboard Quiz

Students answer questions such as:

1. What are the Home Row Keys?
2. Which finger is placed on the **F** key?
3. What is the function of the Shift key?
4. What is the use of the Enter key?
5. What does the Backspace key do?
6. What is typing accuracy?
7. Why is proper posture important?
8. What is touch typing?

Practical Typing Test

Students complete practical typing tasks:

- Type alphabet keys
- Type numbers
- Type words
- Type sentences
- Use punctuation marks
- Use capital letters correctly
- Save the typed document (if applicable)

Feedback & Improvement Tips

The teacher provides individual feedback on:

- Typing speed
- Typing accuracy
- Finger placement
- Keyboard posture
- Common typing mistakes
- Areas for improvement

Students are encouraged to:

- Practice typing every day.
- Focus on accuracy before speed.
- Use proper posture.
- Keep their fingers on the Home Row Keys.

- Avoid looking at the keyboard while typing.
-

Did You Know?

- Regular typing practice helps improve both speed and accuracy.
 - Professional typists rely on touch typing rather than looking at the keyboard.
 - Good posture and finger placement reduce hand fatigue and improve performance.
-

Points to Remember

- Revise keyboard layout regularly.
- Keep fingers on the Home Row Keys.
- Accuracy is more important than speed.
- Maintain proper posture while typing.
- Use correct punctuation and capitalization.
- Practice consistently to become a confident typist.
