

Chapter-End Activities

Chapter 3: Digital Awareness

Activity 1: Digital Awareness Quiz Competition

Objective

To assess students understanding of Digital Awareness concepts through an engaging quiz competition.

Materials Required

- Quiz Question Cards
- Whiteboard & Marker
- Projector (Optional)
- Scoreboard
- Answer Sheets

Instructions

1. Divide the class into **4–5 teams**.
2. Ask one question to each team in turn.
3. Teams discuss and answer within **30 seconds**.
4. Award **1 point** for each correct answer.
5. Continue until all questions are completed.
6. Announce the winning team and discuss the correct answers.

Sample Quiz Questions

- What is Digital Awareness?
- Name three smart devices.
- What is Cyber Safety?
- What is Artificial Intelligence (AI)?
- What is a QR Code used for?
- Name two online learning platforms.
- Why is a strong password important?
- What is the purpose of GPS?
- Name one AI-powered device.

- What is Digital Communication?

Assessment Criteria

- Subject Knowledge
 - Accuracy
 - Confidence
 - Teamwork
 - Participation
-

Activity 2: Smart Technology Exhibition

Objective

To help students explore and explain modern technologies used in everyday life through a classroom exhibition.

Materials Required

- Charts
- Device Pictures
- Technology Models (Optional)
- Flashcards
- Display Tables

Instructions

1. Divide students into small groups.
2. Assign each group one technology topic.
3. Students prepare a display using charts, drawings, or pictures.
4. Each group explains:
 - Name of the technology
 - Uses
 - Benefits
 - Where it is used
5. Teacher and classmates ask questions after each presentation.

Suggested Exhibition Topics

- Smart Devices
- Artificial Intelligence
- Smart Homes
- Digital Payments

- Online Learning
- Healthcare Technology
- Banking Technology
- Agricultural Technology
- Transportation Technology

Assessment Criteria

- Content Accuracy
- Creativity
- Presentation Skills
- Communication
- Teamwork

Activity 3: Cyber Safety Challenge

Objective

To reinforce safe internet practices and responsible digital behavior through problem-solving activities.

Materials Required

- Cyber Safety Scenario Cards
- Safety Rule Flashcards
- Whiteboard
- Score Sheet

Instructions

1. Divide students into teams.
2. Provide each team with one cyber safety scenario.
3. Students discuss the safest response.
4. Each team presents its solution.
5. Award points for correct answers and explanations.

Sample Scenarios

- You receive a message asking for your password.
- An unknown person sends a friend request.
- You receive a suspicious email link.
- Someone is being bullied online.
- A website asks for personal information.

Expected Safe Responses

- Never share passwords.
- Do not click unknown links.
- Report suspicious messages.
- Inform parents or teachers.
- Protect personal information.

Assessment Criteria

- Problem Solving
 - Internet Safety Knowledge
 - Decision Making
 - Team Participation
 - Communication Skills
-

Activity 4: AI Awareness Quiz

Objective

To assess students' knowledge of Artificial Intelligence and its applications.

Materials Required

- AI Quiz Cards
- AI Picture Cards
- Whiteboard
- Scoreboard

Instructions

1. Conduct an individual or team quiz.
2. Ask questions related to AI concepts.
3. Students answer within the allotted time.
4. Award marks for correct answers.
5. Discuss AI applications after the quiz.

Sample Questions

- What does AI stand for?
- Name two AI-powered devices.
- Where is AI used in education?
- Give one example of AI in healthcare.

- What is a voice assistant?
- How does AI help in daily life?

Assessment Criteria

- AI Knowledge
 - Accuracy
 - Confidence
 - Participation
-

Activity 5: Team Presentation

Objective

To develop teamwork and communication skills while explaining digital technologies.

Materials Required

- Chart Paper
- Marker Pens
- Technology Pictures
- Projector (Optional)

Instructions

1. Divide the class into **5 groups**.
2. Assign one topic to each group.
3. Allow **5–10 minutes** for preparation.
4. Each group delivers a **2–3 minute presentation**.
5. Teacher provides constructive feedback.

Presentation Topics

- Technology in Education
- Cyber Safety
- Artificial Intelligence
- Smart Devices
- Digital Communication
- Responsible Internet Use

Assessment Criteria

- Subject Understanding
 - Presentation Skills
 - Confidence
 - Creativity
 - Teamwork
-

Activity 6: Best Digital Citizen Award

Objective

To recognize students who consistently demonstrate responsible, safe, and ethical use of technology.

Award Categories

- Best Digital Citizen
- Best Team Leader
- Best Technology Presenter
- Best Cyber Safety Ambassador
- Best AI Explorer
- Most Active Participant

Evaluation Criteria

- Responsible Technology Use
 - Internet Safety Awareness
 - Classroom Participation
 - Teamwork
 - Leadership
 - Positive Behavior
 - Communication Skills
-

Activity 7: Oral Assessment

Objective

To evaluate students' understanding of digital awareness concepts through verbal responses.

Instructions

Each student answers **3–5 oral questions** related to the chapter.

Sample Oral Questions

- What is Digital Awareness?
- Why is Cyber Safety important?
- What is Artificial Intelligence?
- Name three smart devices.
- What is a QR Code?
- Why should we use strong passwords?
- How does technology help hospitals?
- What is Digital Communication?
- Name one online learning platform.
- How should we behave responsibly online?

Assessment Criteria

- Subject Knowledge
 - Communication Skills
 - Confidence
 - Pronunciation
 - Accuracy
-

Activity 8: Practical Evaluation

Objective

To assess students' practical knowledge and application of concepts learned in **Chapter 3: Digital Awareness**.

Practical Tasks

Students should be able to:

- Identify smart devices and explain their uses.
- Recognize QR Codes and explain their purpose.
- Demonstrate safe internet practices.
- Create a strong sample password.
- Identify AI-enabled technologies.
- Match technologies with industries.
- Explain responsible technology use.
- Complete a Digital Awareness worksheet.

Practical Evaluation Rubric

Assessment Area	Marks
Smart Device Identification	15
Digital Communication Knowledge	15
Cyber Safety Practices	15
Artificial Intelligence Awareness	15
Technology Applications	15
Team Presentation	10
Oral Assessment	10
Practical Skills & Participation	5
Total	100 Marks

Chapter Learning Outcomes

After completing the **Chapter-End Activities** for **Chapter 3: Digital Awareness**, students will be able to:

- Demonstrate a comprehensive understanding of **digital awareness, smart technologies, cyber safety, Artificial Intelligence, and digital communication**.
- Apply safe internet practices and responsible digital citizenship in everyday situations.
- Identify modern technologies used in **education, healthcare, banking, agriculture, transportation, and communication**.
- Explain the benefits and responsible use of AI and emerging technologies.
- Collaborate effectively in quizzes, exhibitions, presentations, and team challenges.
- Communicate confidently during oral and practical assessments while demonstrating strong digital literacy and ethical technology use.
