

Chapter 3: Digital Awareness

Class 10: Practical / Activities (20 Minutes)

Topic: Email Interface Demonstration, Video Call Simulation, Online Learning Activity & Digital Communication Worksheet

Activity 1: Email Interface Demonstration (5 Minutes)

Objective

To help students understand the basic parts of an email interface and learn how emails are composed, sent, and received.

Materials Required

- Computer/Laptop with Internet (or Teacher Demonstration)
- Projector/Smart Board
- Sample Email Account (Teacher)
- Email Interface Worksheet

Instructions

1. The teacher opens an email application (such as Gmail or Outlook) for demonstration.
2. Explain the main parts of the email interface.
3. Demonstrate how to compose a simple email.
4. Show how to attach a file (demonstration only).
5. Explain the Inbox, Sent Mail, Drafts, and Trash folders.
6. Students complete the worksheet by identifying each part.

Parts of an Email

- Inbox
- Compose
- To
- Subject

- Message Body
- Attachment
- Send Button
- Sent Mail
- Drafts
- Trash

Sample Email Activity

To: teacher@school.com

Subject: Homework Submission

Message:

Good Morning Teacher,

I have completed my homework successfully. Please find my assignment attached.

Thank You.

Regards,
Student Name

Teacher Observation Checklist

- ☐ Identifies email interface correctly.
- ☐ Understands the purpose of each section.
- ☐ Participates actively.
- ☐ Completes the worksheet.
- ☐ Demonstrates digital communication awareness.

Activity 2: Video Call Simulation (5 Minutes)

Objective

To familiarize students with video conferencing and teach proper online meeting etiquette.

Materials Required

- Computer/Laptop
- Projector
- Webcam (Optional)
- Microphone (Optional)
- Video Meeting Demonstration (Teacher)

Instructions

1. The teacher demonstrates a mock video meeting.
2. Explain the common buttons used during a video call.
3. Students role-play joining an online class.
4. Practice greeting the teacher and classmates politely.
5. Discuss good online behaviour during virtual classes.

Video Call Features

- Join Meeting
- Microphone (Mute/Unmute)
- Camera (On/Off)
- Raise Hand
- Chat Box
- Leave Meeting
- Screen Sharing (Teacher Demonstration)

Video Meeting Etiquette

- Join the meeting on time.
- Keep the microphone muted when not speaking.
- Raise your hand before asking questions.
- Listen carefully to the speaker.
- Use polite language.
- Avoid unnecessary interruptions.

Teacher Observation Checklist

- ☐ Follows video meeting rules.
- ☐ Uses polite communication.
- ☐ Understands meeting controls.
- ☐ Participates confidently.

☐ Demonstrates good digital manners.

Activity 3: Online Learning Activity (5 Minutes)

Objective

To introduce students to online learning platforms and digital learning resources.

Materials Required

- Computer/Laptop
- Smart Board
- Sample Educational Website
- Online Learning Observation Worksheet

Instructions

1. The teacher opens an educational website or digital learning platform.
2. Explain the features available for students.
3. Demonstrate how to access lessons, videos, quizzes, and assignments.
4. Students observe and complete the worksheet.
5. Discuss the advantages of online learning.

Features to Observe

- Home Page
- Courses
- Learning Videos
- Assignments
- Online Quiz
- Progress Report
- Certificates (Example)

Discussion Questions

- What can students learn online?
- How does online learning help students?
- What should students do during online classes?
- Why is internet safety important while learning online?

Teacher Observation Checklist

- ☐ Identifies online learning features.
 - ☐ Understands digital learning.
 - ☐ Participates actively.
 - ☐ Answers discussion questions.
 - ☐ Demonstrates responsible learning behaviour.
-

Activity 4: Digital Communication Worksheet (5 Minutes)

Objective

To reinforce students understanding of digital communication tools through an individual worksheet activity.

Materials Required

- Digital Communication Worksheet
- Pencil
- Whiteboard

Instructions

1. Distribute the worksheet to all students.
2. Students complete the activities independently.
3. Review the answers together.
4. Discuss the correct uses of different communication tools.

Worksheet Activities

Match the Following

Communication Tool	Use
Email	Send digital messages
Video Call	Online meetings and classes

Communication Tool	Use
Chat	Instant communication
Online Classroom	Digital learning
Attachment	Share files and documents

Fill in the Blanks

1. _____ is used to send electronic messages.
2. A _____ helps people communicate face-to-face over the internet.
3. We should use _____ language during online classes.
4. The _____ line tells the topic of an email.
5. _____ are used to send documents through email.

Teacher Observation Checklist

- ☐ Completes the worksheet independently.
- ☐ Identifies communication tools correctly.
- ☐ Understands their uses.
- ☐ Demonstrates digital communication knowledge.
- ☐ Participates confidently.

Practical Time Distribution

Activity	Duration
Email Interface Demonstration	5 Minutes
Video Call Simulation	5 Minutes
Online Learning Activity	5 Minutes
Digital Communication Worksheet	5 Minutes
Total Practical Time	20 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Identify the main parts of an **email interface** and understand the basic process of composing and sending an email.
- Demonstrate appropriate behavior and **netiquette** during a video conference or online class.
- Recognize the features and benefits of **online learning platforms** and digital educational resources.
- Explain the uses of common **digital communication tools**, including email, video calls, chat, and online classrooms.
- Develop confidence in using digital communication technologies responsibly, safely, and effectively for learning and collaboration.
