

Chapter 3: Digital Awareness

Class 11: Practical / Activities (20 Minutes)

Topic: Password Creation Activity, Cyber Safety Role Play, Safe Browsing Challenge & Internet Safety Poster

Activity 1: Password Creation Activity (5 Minutes)

Objective

To help students understand the importance of creating strong passwords and protecting their online accounts.

Materials Required

- Computer/Laptop (Optional)
- Password Creation Worksheet
- Whiteboard & Marker
- Pencil

Instructions

1. The teacher explains why passwords are important.
2. Discuss the characteristics of a strong password.
3. Students create **three sample strong passwords** (for practice only, not real passwords).
4. Students identify whether given passwords are **Strong** or **Weak**.
5. The teacher reviews the answers and explains how to improve weak passwords.

Strong Password Rules

- Minimum **8 characters**
- Contains uppercase letters (A–Z)
- Contains lowercase letters (a–z)
- Contains numbers (0–9)
- Contains special symbols (!, @, #, \$, %, &)
- Does not include personal information such as name or date of birth

Practice Activity

Password	Strong / Weak
123456	Weak
Rahul123	Weak
Learn@2026	Strong
School@45	Strong
password	Weak
MyClass#8	Strong

Teacher Observation Checklist

- ☐ Understands the importance of passwords.
 - ☐ Creates strong sample passwords.
 - ☐ Identifies strong and weak passwords correctly.
 - ☐ Participates actively.
 - ☐ Demonstrates cyber safety awareness.
-

Activity 2: Cyber Safety Role Play (5 Minutes)

Objective

To help students recognize unsafe online situations and respond appropriately through role-playing.

Materials Required

- Cyber Safety Scenario Cards
- Name Tags (Optional)
- Whiteboard

Instructions

1. Divide the class into **small groups (3–5 students)**.

2. Give each group one cyber safety scenario.
3. Students prepare a **2-minute role play** showing the correct response.
4. Each group performs for the class.
5. The teacher discusses the correct cyber safety practices after each performance.

Sample Role Play Scenarios

- A stranger asks for your password online.
- A friend receives a suspicious link in a message.
- Someone posts unkind comments on social media.
- A student receives a fake prize-winning email.
- An unknown person sends a friend request.

Expected Safe Responses

- Do not share passwords.
- Avoid clicking unknown links.
- Report cyberbullying to a trusted adult.
- Ignore fake prize messages.
- Accept requests only from people you know.

Teacher Observation Checklist

- ☐ Identifies online risks.
 - ☐ Demonstrates safe online behavior.
 - ☐ Works well in a group.
 - ☐ Communicates confidently.
 - ☐ Applies cyber safety rules correctly.
-

Activity 3: Safe Browsing Challenge (5 Minutes)

Objective

To help students identify safe and unsafe internet browsing practices.

Materials Required

- Safe Browsing Worksheet
- Website Picture Cards
- Whiteboard
- Marker

Instructions

1. The teacher shows examples of websites and online situations.
2. Students decide whether each example is **Safe** or **Unsafe**.
3. Students explain the reason for their choice.
4. Discuss good browsing habits and common online dangers.

Safe or Unsafe?

Situation	Safe / Unsafe
Visiting the school's official website	Safe
Clicking an unknown link in an email	Unsafe
Downloading software from an official website	Safe
Sharing your password with a friend	Unsafe
Using a secure website with https://	Safe
Giving personal details to strangers online	Unsafe

Safe Browsing Rules

- Visit trusted websites.
- Check for **https://** and the padlock symbol.
- Never share passwords.
- Avoid unknown links and pop-ups.
- Ask a parent or teacher before downloading files.

Teacher Observation Checklist

- ☐ Identifies safe browsing practices.
 - ☐ Recognizes unsafe online behavior.
 - ☐ Participates in discussions.
 - ☐ Completes the worksheet accurately.
 - ☐ Demonstrates responsible internet use.
-

Activity 4: Internet Safety Poster Activity (5 Minutes)

Objective

To encourage students to spread awareness about cyber safety through creative poster making.

Materials Required

- A4 Drawing Sheet
- Color Pencils/Sketch Pens
- Scale
- Pencil
- Sample Safety Slogans

Instructions

1. Students design a poster promoting safe internet use.
2. Include a **title, illustrations, and 2–3 internet safety rules.**
3. Use bright colors and clear messages.
4. Display the posters in the classroom.
5. The teacher appreciates creativity and accurate safety messages.

Suggested Poster Titles

- **Be Smart, Stay Safe Online**
- **Think Before You Click**
- **Protect Your Password**
- **Cyber Safety Starts with You**
- **Safe Internet, Safe Future**

Suggested Safety Slogans

- Think Before You Click.
- Keep Your Password Secret.
- Never Share Personal Information.
- Use Strong Passwords.
- Stay Safe, Stay Smart Online.
- Report Suspicious Messages.

Teacher Observation Checklist

☐ Poster message is clear.

- ☐ Demonstrates creativity.
 - ☐ Includes correct internet safety rules.
 - ☐ Neat and well-presented work.
 - ☐ Participates enthusiastically.
-

Practical Time Distribution

Activity	Duration
Password Creation Activity	5 Minutes
Cyber Safety Role Play	5 Minutes
Safe Browsing Challenge	5 Minutes
Internet Safety Poster Activity	5 Minutes
Total Practical Time	20 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Create **strong and secure passwords** using recommended cyber safety practices.
- Demonstrate appropriate responses to common online risks through role-play activities.
- Distinguish between **safe and unsafe internet browsing** habits and identify secure websites.
- Explain the importance of protecting personal information and following responsible online behavior.
- Promote cyber safety by creating informative **Internet Safety Posters**.
- Develop confidence in becoming responsible and safe **digital citizens**.
