

# **Chapter 3: Digital Awareness**

## **Class 13: Practical / Activities (20 Minutes)**

**Topic: Technology in Daily Life Chart Making, Industry Technology Matching Activity, Team Presentation & Digital Awareness Worksheet**

---

### **Activity 1: Technology in Daily Life Chart Making (5 Minutes)**

#### **Objective**

To help students understand how technology is used in different areas of daily life by creating an informative chart.

#### **Materials Required**

- Chart Paper / A4 Sheet
- Pencil
- Scale
- Color Pencils / Sketch Pens
- Technology Picture Cards (Optional)
- Glue (Optional)

#### **Instructions**

1. The teacher explains that technology is used in many sectors such as education, healthcare, banking, agriculture, transportation, communication, and homes.
2. Students prepare a simple chart showing different sectors and the technologies used in each.
3. Students may draw pictures or write examples.
4. Encourage neat handwriting and colorful presentation.
5. Students briefly explain their completed chart to the class.

## Sample Chart Format

| Area           | Technology Used                     |
|----------------|-------------------------------------|
| Education      | Smart Board, Computer, Tablet       |
| Healthcare     | Digital Health Records, MRI Scanner |
| Banking        | ATM, UPI, Internet Banking          |
| Agriculture    | Tractor, Drone, Irrigation System   |
| Transportation | GPS, Online Ticket Booking          |
| Home           | Smart TV, Smart Speaker             |

## Teacher Observation Checklist

- ☐ Identifies different technology sectors.
  - ☐ Includes correct examples.
  - ☐ Organizes information clearly.
  - ☐ Maintains neatness and creativity.
  - ☐ Explains the chart confidently.
- 

# Activity 2: Industry Technology Matching Activity (5 Minutes)

## Objective

To help students match industries with the technologies commonly used in each field.

## Materials Required

- Industry Cards
- Technology Cards
- Matching Worksheet
- Whiteboard

## Instructions

1. Provide each student or group with two sets of cards.

2. One set contains **industry names** and the other contains **technology tools**.
3. Students match each technology with the correct industry.
4. Review the answers together and discuss how each technology improves that industry.

## Matching Activity

| Industry       | Technology             |
|----------------|------------------------|
| Education      | Smart Board            |
| Healthcare     | Digital Health Records |
| Banking        | ATM                    |
| Agriculture    | Drone                  |
| Transportation | GPS Navigation         |
| Communication  | Email                  |
| Retail         | QR Code Payment        |
| Home           | Smart Speaker          |
| Security       | CCTV Camera            |
| Office         | Computer & Printer     |

## Teacher Observation Checklist

- ☒ Matches industries correctly.
- ☒ Understands technology applications.
- ☒ Participates actively.
- ☒ Completes the worksheet accurately.
- ☒ Demonstrates logical thinking.

---

## Activity 3: Team Presentation (5 Minutes)

### Objective

To improve teamwork, communication skills, and understanding of technology applications in different industries.

## Materials Required

- Chart Paper
- Marker Pens
- Topic Cards
- Whiteboard

## Instructions

1. Divide the class into **5 groups**.
2. Assign one topic to each group.
3. Groups prepare a **2-minute presentation**.
4. One or two students present while others support with charts or drawings.
5. The teacher asks one or two questions after each presentation.

## Presentation Topics

- Technology in Education
- Technology in Healthcare
- Technology in Banking
- Technology in Agriculture
- Technology in Transportation

## Presentation Guidelines

Students should explain:

- Name of the industry.
- Technologies used.
- Benefits of technology.
- One real-life example.
- Why technology is important.

## Teacher Observation Checklist

- ☐ Works well with teammates.
- ☐ Speaks confidently.
- ☐ Explains technology correctly.
- ☐ Uses visual aids effectively.
- ☐ Answers questions clearly.

# Activity 4: Digital Awareness Worksheet (5 Minutes)

## Objective

To assess students' understanding of technology applications through a written worksheet.

## Materials Required

- Digital Awareness Worksheet
- Pencil
- Whiteboard

## Instructions

1. Distribute the worksheet to all students.
2. Students complete the questions independently.
3. Review the answers together.
4. Discuss any incorrect responses.

## Worksheet Activities

### A. Match the Following

| Technology             | Use                 |
|------------------------|---------------------|
| Smart Board            | Classroom Teaching  |
| ATM                    | Banking Services    |
| GPS                    | Finding Directions  |
| Drone                  | Crop Monitoring     |
| Digital Health Records | Patient Information |

---

### B. Fill in the Blanks

1. \_\_\_\_\_ helps teachers conduct interactive lessons.
  2. \_\_\_\_\_ is used to withdraw money from a bank account.
  3. \_\_\_\_\_ helps people find the correct route while travelling.
  4. \_\_\_\_\_ are used by farmers to monitor crops.
  5. \_\_\_\_\_ store patient information electronically.
-

### C. True or False

1. GPS helps people find locations. \_\_\_\_\_
  2. Smart Boards are used only in hospitals. \_\_\_\_\_
  3. Drones can be used in agriculture. \_\_\_\_\_
  4. ATMs provide banking services. \_\_\_\_\_
  5. Technology improves many areas of daily life. \_\_\_\_\_
- 

### Teacher Observation Checklist

- ☐ Completes the worksheet independently.
  - ☐ Identifies technology correctly.
  - ☐ Understands practical applications.
  - ☐ Demonstrates digital awareness.
  - ☐ Participates confidently.
- 

## Practical Time Distribution

| Activity                              | Duration          |
|---------------------------------------|-------------------|
| Technology in Daily Life Chart Making | <b>5 Minutes</b>  |
| Industry Technology Matching Activity | <b>5 Minutes</b>  |
| Team Presentation                     | <b>5 Minutes</b>  |
| Digital Awareness Worksheet           | <b>5 Minutes</b>  |
| <b>Total Practical Time</b>           | <b>20 Minutes</b> |

---

## Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Identify how technology is used in **education, healthcare, banking, agriculture, transportation, communication, and daily life.**
- Match different industries with the appropriate digital technologies and explain their functions.

- Demonstrate teamwork, communication, and presentation skills while discussing technology-based topics.
- Complete worksheets that reinforce their understanding of digital awareness concepts.
- Appreciate the role of technology in improving efficiency, safety, and convenience across different sectors.
- Develop responsible attitudes toward the use of technology and strengthen their overall digital literacy skills.
