

Chapter 3: Digital Awareness

Class 14: Practical / Activities (20 Minutes)

Topic: Digital Awareness Quiz, Picture Identification, Team Challenge, Oral Assessment & Practical Revision

Activity 1: Digital Awareness Quiz (5 Minutes)

Objective

To assess students understanding of all the topics covered in **Chapter 3: Digital Awareness**, including smart devices, digital communication, cyber safety, Artificial Intelligence, and technology in daily life.

Materials Required

- Digital Awareness Quiz Worksheet
- Whiteboard & Marker
- Quiz Cards
- Score Sheet

Instructions

1. Distribute the quiz worksheet to each student.
2. Allow students **5 minutes** to answer the questions individually.
3. Review the answers together as a class.
4. Award **1 mark** for each correct answer.
5. Discuss incorrect answers to reinforce learning.

Sample Quiz Questions

1. What is Digital Awareness?
2. Name any two smart devices.
3. What is an email used for?
4. What is Cyber Safety?
5. What is Artificial Intelligence (AI)?
6. What is the purpose of a QR Code?

7. Which technology helps us find directions while travelling?
8. Why should we use strong passwords?
9. Name one technology used in hospitals.
10. Give one example of online learning.

Teacher Observation Checklist

- ☐ Completes the quiz independently.
 - ☐ Answers correctly.
 - ☐ Demonstrates subject knowledge.
 - ☐ Participates actively.
 - ☐ Shows confidence during the activity.
-

Activity 2: Picture Identification (5 Minutes)

Objective

To help students recognize digital devices and technologies and explain their practical uses.

Materials Required

- Technology Picture Cards
- Smart Board/Projector (Optional)
- Picture Identification Worksheet

Instructions

1. Display pictures of different digital devices and technologies.
2. Students identify each picture.
3. Students explain its name, purpose, and where it is commonly used.
4. Complete the worksheet by writing the correct answers.
5. Teacher provides feedback and additional information.

Pictures for Identification

- Smartphone
- Laptop
- Tablet

- ATM
- QR Code
- Smart Watch
- Smart Board
- Robot
- Drone
- GPS Navigation
- Printer
- Scanner

Questions

- What is the name of the device?
- Where is it used?
- What is its main purpose?
- How does it help people?

Teacher Observation Checklist

- ☒ Identifies pictures correctly.
 - ☒ Explains the uses clearly.
 - ☒ Participates confidently.
 - ☒ Completes the worksheet accurately.
 - ☒ Demonstrates digital awareness.
-

Activity 3: Team Challenge (5 Minutes)

Objective

To reinforce students knowledge of digital awareness concepts through teamwork, communication, and problem-solving.

Materials Required

- Activity Cards
- Flashcards
- Team Scoreboard
- Timer

Instructions

1. Divide the class into **4–5 teams**.
2. Give each team one challenge card.
3. Teams discuss and complete the assigned task within the time limit.
4. Each team presents its answers.
5. Award points for accuracy, teamwork, and presentation.

Team Challenge Tasks

- Match technologies with their correct uses.
- Identify safe and unsafe internet practices.
- Arrange the steps to send an email.
- List five cyber safety rules.
- Name five AI-powered technologies.
- Identify technologies used in education, banking, and healthcare.
- Explain the importance of responsible technology use.

Teacher Observation Checklist

- ☒ Works cooperatively.
 - ☒ Solves problems correctly.
 - ☒ Shares ideas confidently.
 - ☒ Demonstrates teamwork.
 - ☒ Completes the challenge successfully.
-

Activity 4: Oral Assessment & Practical Revision (5 Minutes)

Objective

To evaluate students speaking skills, subject understanding, and practical knowledge through oral questioning and revision.

Materials Required

- Oral Question Cards
- Whiteboard
- Teacher Assessment Sheet

Instructions

1. Ask each student **2–3 oral questions** from the chapter.
2. Students answer clearly using complete sentences.
3. Conduct a quick revision of important concepts after the assessment.
4. Encourage all students to participate.
5. Provide positive feedback and suggestions for improvement.

Sample Oral Questions

- What is Digital Awareness?
- Name three smart devices.
- What is Cyber Safety?
- What is a strong password?
- What is Artificial Intelligence?
- How is technology used in education?
- Why is online safety important?
- What is the purpose of GPS?
- Give one example of digital communication.
- Why should we protect personal information online?

Practical Revision Checklist

Students should be able to:

- Identify smart devices.
- Explain the uses of QR Codes.
- Describe safe internet practices.
- Explain the importance of strong passwords.
- Identify AI-enabled devices.
- Match technologies with industries.
- Explain responsible technology use.

Teacher Observation Checklist

- ☒ Answers questions confidently.
- ☒ Demonstrates good communication skills.

- ✓ Shows clear understanding of concepts.
 - ✓ Participates actively.
 - ✓ Responds accurately during revision.
-

Practical Time Distribution

Activity	Duration
Digital Awareness Quiz	5 Minutes
Picture Identification	5 Minutes
Team Challenge	5 Minutes
Oral Assessment & Practical Revision	5 Minutes
Total Practical Time	20 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Revise and confidently apply all concepts learned in **Chapter 3: Digital Awareness**.
- Identify digital devices, smart technologies, and AI-powered tools and explain their uses.
- Demonstrate knowledge of **digital communication, cyber safety, responsible internet use, and Artificial Intelligence**.
- Work effectively in teams while solving digital awareness challenges and presenting ideas.
- Communicate confidently during quizzes, oral assessments, and practical revision activities.
- Strengthen digital literacy, critical thinking, and responsible technology usage, preparing them for future digital learning and everyday life.
