

Chapter 3: Digital Awareness

Class 9: Practical / Activities (20 Minutes)

Topic: Smart Device Identification, Technology Picture Matching, QR Code Observation & Device Sorting Activity

Activity 1: Smart Device Identification (5 Minutes)

Objective

To help students identify different smart devices, understand their functions, and explain how they are used in everyday life.

Materials Required

- Smart Device Flashcards
- Real Smart Devices (if available)
- Picture Identification Worksheet
- Whiteboard & Marker

Instructions

1. The teacher displays pictures or real smart devices one by one.
2. Students identify the name of each device.
3. Students explain one or two uses of each device.
4. The teacher discusses where each device is commonly used.
5. Students complete the Smart Device Identification Worksheet.

Smart Devices for Identification

- Smartphone
- Tablet
- Laptop
- Desktop Computer
- Smart Watch
- Smart TV
- Smart Speaker

- Digital Camera
- Printer
- Scanner

Sample Questions

- What is the name of this device?
- Is it portable?
- Where is it commonly used?
- What are its main functions?
- Is it connected to the internet?

Teacher Observation Checklist

- ☐ Identifies smart devices correctly.
 - ☐ Explains the uses of each device.
 - ☐ Participates actively.
 - ☐ Demonstrates confidence.
 - ☐ Completes the worksheet independently.
-

Activity 2: Technology Picture Matching (5 Minutes)

Objective

To help students match technology devices with their correct uses and understand their importance in daily life.

Materials Required

- Technology Picture Cards
- Function Cards
- Matching Worksheet
- Glue Stick (Optional)

Instructions

1. Give each student a worksheet containing pictures and functions.
2. Students match each picture with its correct function.
3. After completing the worksheet, discuss the answers together.
4. Ask students to explain why each device is used.

Matching Activity

Technology Device	Function
Smartphone	Communication and Internet Access
ATM	Cash Withdrawal and Banking
QR Code	Digital Payments and Information Access
Smart TV	Online Learning and Entertainment
Laptop	Study and Office Work
Tablet	Reading and Online Learning
Printer	Printing Documents
Scanner	Scanning Documents
Smart Watch	Health and Fitness Tracking
GPS Device	Navigation and Route Guidance

Teacher Observation Checklist

- ☐ Matches devices correctly.
 - ☐ Understands the purpose of each device.
 - ☐ Completes the worksheet accurately.
 - ☐ Participates in discussion.
 - ☐ Demonstrates observation skills.
-

Activity 3: QR Code Observation Activity (5 Minutes)

Objective

To introduce students to QR Codes and explain their uses in everyday life.

Materials Required

- Sample QR Codes (Printed)
- Smartphone or Tablet (Teacher Demonstration)
- QR Code Observation Worksheet
- Whiteboard

Instructions

1. Show students different sample QR Codes.
2. Demonstrate how a QR Code is scanned using a smartphone or tablet.
3. Explain what information a QR Code can contain.
4. Students observe the demonstration and complete the observation worksheet.
5. Discuss where QR Codes are commonly used.

Examples of QR Code Uses

- Digital Payments
- Website Links
- School Attendance
- Event Registration
- Restaurant Menus
- Product Information
- Library Resources

Observation Questions

- What is a QR Code?
- Which device is used to scan a QR Code?
- Name three places where QR Codes are used.
- Why are QR Codes useful?

Teacher Observation Checklist

- ☐ Identifies a QR Code correctly.
 - ☐ Understands the purpose of QR Codes.
 - ☐ Observes the demonstration carefully.
 - ☐ Answers questions correctly.
 - ☐ Participates actively.
-

Activity 4: Device Sorting Activity (5 Minutes)

Objective

To develop students ability to classify digital devices based on their purpose and everyday use.

Materials Required

- Device Flashcards
- Sorting Chart
- Team Scoreboard
- Sticky Notes

Instructions

1. Divide the class into **3–4 teams**.
2. Provide each team with a set of device flashcards.
3. Students sort the devices into the correct categories.
4. One student from each team explains why each device belongs to that category.
5. Award points for correct answers and teamwork.

Sorting Categories

Category	Examples
Communication Devices	Smartphone, Tablet
Learning Devices	Laptop, Desktop Computer, Tablet
Entertainment Devices	Smart TV, Smart Speaker
Banking Devices	ATM, QR Code Scanner
Office Devices	Printer, Scanner

Teacher Observation Checklist

- ☐ Classifies devices correctly.
- ☐ Explains the reason for classification.
- ☐ Works cooperatively with teammates.
- ☐ Participates confidently.

☐ Demonstrates digital awareness.

Practical Time Distribution

Activity	Duration
Smart Device Identification	5 Minutes
Technology Picture Matching	5 Minutes
QR Code Observation Activity	5 Minutes
Device Sorting Activity	5 Minutes
Total Practical Time	20 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Identify a variety of **smart devices** and explain their functions.
- Match common **technology devices** with their real-life uses.
- Understand how **QR Codes** work and recognize their applications in daily life.
- Classify digital devices into appropriate categories based on their purpose.
- Improve observation, communication, teamwork, and digital literacy skills through interactive activities.
- Develop confidence in recognizing and using modern technology responsibly in everyday situations.
