

# Class X – Term I

## Courses

- AI Productivity & Research
  - Prompt Engineering & AI Content Creation
  - Digital Content Creation
  - Presentation & Visual Communication
- 

## Activities

- AI Productivity Challenge
- AI Prompt Challenge
- Poster & Infographic Design Contest
- Presentation Skills Assessment
- Computer Quiz Competition

| Chapter                                             | Classes      | Topics Covered                                                                                                                                                                                                                                                                                                                                                | Practical Training (10 Minutes)                                                                                                                                                                                                                                                                                                                       | Chapter-End Activity                                                                                                                                                                                                            |
|-----------------------------------------------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chapter 1: AI Productivity & Research               | Classes 1–6  | <b>Class 1:</b> Introduction to AI Productivity & Research. <b>Class 2:</b> AI for Research & Information Collection. <b>Class 3:</b> AI for Note-making & Summarization. <b>Class 4:</b> AI for Project Planning & Data Organization. <b>Class 5:</b> Responsible AI Use, Fact Checking & Citation. <b>Class 6:</b> Revision & AI Productivity Applications. | <b>Class 1:</b> Explore AI productivity tools. <b>Class 2:</b> Research a topic using AI. <b>Class 3:</b> Summarize an article using AI. <b>Class 4:</b> Create a project plan with AI assistance. <b>Class 5:</b> Verify AI-generated information using reliable sources. <b>Class 6:</b> AI productivity practice, revision & practical assessment. | <b>Individual:</b> AI Productivity Quiz & Mini AI Assessment. <b>Team:</b> AI Productivity Challenge & Research Workshop. <b>Recognition:</b> Best AI Researcher Award, Best AI Productivity Team Award & Practical Evaluation. |
| Chapter 2: Prompt Engineering & AI Content Creation | Classes 7–12 | <b>Class 7:</b> Introduction to Prompt Engineering. <b>Class 8:</b> Writing Effective Text Prompts. <b>Class 9:</b> AI Prompts for Images & Graphics. <b>Class 10:</b> AI Prompts for Presentations & Reports. <b>Class 11:</b> Refining Prompts for Better Results. <b>Class 12:</b> Revision & Prompt Engineering Applications.                             | <b>Class 7:</b> Write a basic AI prompt. <b>Class 8:</b> Improve an existing prompt. <b>Class 9:</b> Generate an AI image using prompts. <b>Class 10:</b> Create presentation content using AI prompts. <b>Class 11:</b> Compare and refine prompt results. <b>Class 12:</b> Prompt engineering practice, revision & practical assessment.            | <b>Individual:</b> Prompt Engineering Quiz & Mini Prompt Assessment. <b>Team:</b> AI Prompt Challenge & Prompt Design Workshop. <b>Recognition:</b> Best Prompt Engineer Award, Best Prompt Design                              |

| Chapter                                                   | Classes              | Topics Covered                                                                                                                                                                                                                                                                                                                | Practical Training (10 Minutes)                                                                                                                                                                                                                                                                                                                                    | Chapter-End Activity                                                                                                                                                                                                                                                   |
