

Chapter 1: AI Productivity & Research

Class 1: Practical / Activities (10 Minutes)

Topic: Explore AI Productivity Tools

Activity 1: Explore AI Productivity Tools (4 Minutes)

Objective

To help students identify, explore, and understand the basic features of AI productivity tools and how they can support learning, research, note-making, project planning, and everyday academic tasks.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Tools (ChatGPT, Google Gemini, Microsoft Copilot, Perplexity AI, Canva AI)
 - Student Activity Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. The teacher introduces **AI productivity tools** and explains their educational uses.
2. Students open any one AI productivity tool.
3. Explore the homepage and identify:
 - Search/Input box
 - Chat or Conversation area
 - Response section
 - Menu or Settings
 - History (if available)
4. Enter a simple academic prompt such as:

- *"Explain Artificial Intelligence in simple words."*
 - *"List five benefits of renewable energy."*
 - *"Summarize the importance of water conservation."*
5. Read the AI response carefully.
 6. Discuss how the tool can help students in daily learning.

AI Productivity Tools Exploration Worksheet

AI Tool	Purpose	Observed (✓)
ChatGPT	Question Answering & Learning	☐
Google Gemini	Research & Information	☐
Microsoft Copilot	Productivity & Writing	☐
Perplexity AI	AI Search & Research	☐
Canva AI	Design & Presentations	☐

Features Identified

Feature	Found (✓)
Search/Input Box	☐
AI Response Area	☐
Chat History	☐
Copy Response Option	☐
Share/Export Option	☐

Student Activity Checklist

Students should:

- ✓ Open an AI productivity tool.
- ✓ Explore the interface.
- ✓ Enter a simple learning prompt.
- ✓ Read and understand the AI response.

- ✓ Identify the tool's educational purpose.
-

Teacher Observation Checklist

- ✓ Opens the AI tool successfully.
 - ✓ Identifies major interface features.
 - ✓ Uses an appropriate prompt.
 - ✓ Understands the AI-generated response.
-

Activity 2: Compare AI Productivity Tools (3 Minutes)

Objective

To help students compare different AI productivity tools based on their features and educational uses.

Materials Required

- Comparison Worksheet
 - Computer/Laptop
 - Teacher Evaluation Sheet
-

Instructions

1. Students work individually or in pairs.
2. Explore **two different AI tools**.
3. Compare them based on:
 - Ease of use
 - Speed
 - Accuracy
 - Research support

- Creativity
 - 4. Record observations in the worksheet.
 - 5. Share your findings with the class.
-

AI Tool Comparison Worksheet

Feature	Tool 1	Tool 2
Easy to Use	☐	☐
Fast Response	☐	☐
Helpful for Research	☐	☐
Good for Study Notes	☐	☐
Useful for Projects	☐	☐

Discussion Questions

1. Which AI tool was easiest to use?
 2. Which tool provided the most useful response?
 3. Which AI tool would you use for research?
 4. Why should students compare AI responses?
-

Teacher Observation Checklist

- ☒ Compares AI tools correctly.
 - ☒ Identifies differences in features.
 - ☒ Participates actively.
 - ☒ Explains observations clearly.
-

Activity 3: Responsible AI Reflection (3 Minutes)

Objective

To encourage students to think about the responsible and ethical use of AI tools in education.

Materials Required

- Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Students complete the reflection worksheet.
 2. Discuss how AI should be used responsibly.
 3. Share one benefit and one limitation of AI.
 4. Write one rule for responsible AI use.
-

Reflection Worksheet

Answer the following questions:

1. Which AI tool did you explore today?
-

2. How can AI help you in your studies?
-

3. What is one limitation of AI?
-

4. Why should AI-generated information be verified?

5. Write one responsible AI rule.

Self-Assessment Checklist

Skill	Yes Needs Practice	
I explored an AI tool independently.	☐	☐
I entered a useful AI prompt.	☐	☐
I understood the AI response.	☐	☐
I identified AI features correctly.	☐	☐
I understand responsible AI use.	☐	☐

Teacher Observation Checklist

- ☒ Completes reflection thoughtfully.
 - ☒ Demonstrates awareness of responsible AI use.
 - ☒ Participates in discussion.
 - ☒ Shows curiosity and willingness to learn.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Tool Exploration	20
Understanding AI Features	20
AI Tool Comparison	20
Responsible AI Reflection	20
Participation & Observation	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Explores AI productivity tools confidently.
 - ✓ Identifies key features and educational uses of AI tools.
 - ✓ Compares AI tools based on functionality and usefulness.
 - ✓ Demonstrates responsible AI awareness during activities.
 - ✓ Participates actively in discussions, reflections, and practical tasks.
-

Practical Time Distribution

Activity	Duration
Explore AI Productivity Tools	4 Minutes
Compare AI Productivity Tools	3 Minutes
Responsible AI Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Explore and identify the features of popular **AI productivity tools**.
- Use AI tools to answer questions and support learning tasks.
- Compare different AI tools based on their educational features and usability.
- Recognize the advantages and limitations of AI in education.
- Demonstrate responsible and ethical use of AI tools.
- Apply AI productivity tools effectively for research, learning, note-making, project planning, and future academic activities.
