

Chapter 1: AI Productivity & Research

Class 2: Practical / Activities (10 Minutes)

Topic: Research a Topic Using AI

Activity 1: Research a Topic Using AI (4 Minutes)

Objective

To help students use AI tools to research an academic topic, collect relevant information, identify key points, and develop basic research skills using responsible AI practices.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Tool (ChatGPT, Google Gemini, Microsoft Copilot or Perplexity AI)
 - Student Research Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open any AI productivity tool.
2. Choose **one research topic** from the list provided.
3. Write a clear research prompt.
4. Ask the AI to explain the topic.
5. Read the AI response carefully.
6. Identify the:
 - Definition
 - Main facts
 - Advantages
 - Applications

7. Record the important points in the worksheet.
 8. Discuss your findings with your classmates.
-

Suggested Research Topics

- Artificial Intelligence
 - Climate Change
 - Renewable Energy
 - Water Conservation
 - Cyber Safety
 - Digital Citizenship
 - Plastic Pollution
 - Space Exploration
 - Healthy Lifestyle
 - Sustainable Development
-

Sample AI Prompt

Prompt:

"Explain the importance of renewable energy for Class X students with five key points and two real-life examples."

Student Research Worksheet

Research Task	Completed (✓)
Topic Selected	☐
AI Prompt Written	☐
Information Collected	☐
Key Points Identified	☐
Notes Prepared	☐
Research Completed	☐

Student Activity Checklist

Students should:

- ✓ Select an appropriate topic.
 - ✓ Write a clear AI prompt.
 - ✓ Read the AI response carefully.
 - ✓ Identify important information.
 - ✓ Record research notes.
-

Teacher Observation Checklist

- ✓ Chooses an appropriate topic.
 - ✓ Uses an effective research prompt.
 - ✓ Collects useful information.
 - ✓ Organizes research correctly.
-

Activity 2: Organize and Verify Research Information (3 Minutes)

Objective

To help students organize AI-generated information and verify its accuracy using trusted educational resources.

Materials Required

- Textbook or Trusted Educational Website
- Research Verification Worksheet
- Teacher Evaluation Sheet

Instructions

1. Review the AI-generated research.
 2. Compare the information with:
 - School textbook
 - Educational website
 - Government website (if applicable)
 3. Mark whether each point is correct.
 4. Correct any inaccurate or incomplete information.
 5. Rewrite the verified research in your own words.
-

Research Verification Worksheet

Research Item	Verified (✓)	Needs Correction
Definition	☐	☐
Main Facts	☐	☐
Examples	☐	☐
Advantages	☐	☐
Applications	☐	☐

Discussion Questions

1. Why is it important to verify AI-generated information?
 2. Which source did you use for verification?
 3. Did you find any incorrect or incomplete information?
 4. Why should students compare multiple sources?
-

Teacher Observation Checklist

- ☒ Verifies information correctly.
- ☒ Uses reliable sources.
- ☒ Identifies inaccurate information.

- ✓ Demonstrates critical thinking.
-

Activity 3: Research Presentation & Reflection (3 Minutes)

Objective

To encourage students to summarize their research, present key findings, and reflect on the benefits and limitations of AI-assisted research.

Materials Required

- Student Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Prepare a **1-minute summary** of your research topic.
 2. Present:
 - Topic
 - Three important facts
 - One real-life application
 3. Complete the reflection worksheet.
 4. Share one benefit and one limitation of using AI for research.
-

Reflection Worksheet

Answer the following questions:

1. What topic did you research?

2. What are three important facts you learned?

3. How did AI help you during research?

4. Why should AI information be verified?

5. What is one responsible AI practice you will follow?

Self-Assessment Checklist

Skill	Yes	Needs Practice
I selected a suitable research topic.	☐	☐
I wrote an effective AI prompt.	☐	☐
I collected useful information.	☐	☐
I verified AI-generated facts.	☐	☐
I summarized the research clearly.	☐	☐

Teacher Observation Checklist

- ☒ Summarizes research clearly.
- ☒ Presents findings confidently.
- ☒ Demonstrates responsible AI use.
- ☒ Participates actively.

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Research Skills	20
Prompt Writing	20
Information Collection & Organization	20

Assessment Area	Marks
Fact Verification	20
Presentation & Participation	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Selects an appropriate research topic.
 - ✓ Uses AI tools effectively to collect information.
 - ✓ Verifies AI-generated information using reliable sources.
 - ✓ Organizes and presents research findings clearly.
 - ✓ Demonstrates responsible AI practices and active participation.
-

Practical Time Distribution

Activity	Duration
Research a Topic Using AI	4 Minutes
Organize & Verify Research Information	3 Minutes
Research Presentation & Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Use AI tools to research academic topics efficiently.
- Write clear and effective prompts to obtain relevant information.
- Collect, organize, and summarize research findings.
- Verify AI-generated information using trusted educational sources.
- Present research findings confidently and accurately.
- Apply responsible AI practices in research, assignments, projects, and classroom learning.
