

Chapter 1: AI Productivity & Research

Class 4: Practical / Activities (10 Minutes)

Topic: Create a Project Plan with AI Assistance

Activity 1: Create a Project Plan Using AI (4 Minutes)

Objective

To help students use AI tools to create a structured project plan by generating project ideas, defining objectives, organizing tasks, and preparing a simple project timeline.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Tool (ChatGPT, Google Gemini, Microsoft Copilot or Perplexity AI)
 - Student Project Planning Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open any AI productivity tool.
2. Choose one project topic from the list below.
3. Enter a clear prompt into the AI tool.

Sample Prompt:

"Create a simple project plan for a Class X student on Water Conservation, including objectives, activities, timeline, required materials, and expected outcomes."

4. Read the AI-generated project plan.

5. Review the suggested objectives, tasks, and timeline.
6. Record the project plan in the worksheet.
7. Discuss the project plan with your classmates.

Suggested Project Topics

- Artificial Intelligence in Education
- Water Conservation
- Renewable Energy
- Plastic Pollution
- Climate Change
- Cyber Safety
- Digital Citizenship
- Healthy Lifestyle
- Tree Plantation
- Sustainable Development

Student Project Planning Worksheet

Project Task	Completed (✓)
Project Topic Selected	☐
AI Prompt Written	☐
Project Objectives Created	☐
Activities Planned	☐
Timeline Prepared	☐
Project Plan Completed	☐

Student Activity Checklist

Students should:

- ✓ Select a suitable project topic.
- ✓ Write a clear AI prompt.
- ✓ Review the AI-generated project plan.

- ✓ Prepare a simple timeline.
 - ✓ Record the project details neatly.
-

Teacher Observation Checklist

- ✓ Selects an appropriate project topic.
 - ✓ Uses AI effectively.
 - ✓ Plans project activities logically.
 - ✓ Organizes project information correctly.
-

Activity 2: Organize Project Tasks & Timeline (3 Minutes)

Objective

To help students organize project activities into a logical sequence using AI-assisted planning tools, checklists, and timelines.

Materials Required

- Project Planning Worksheet
 - Timeline Template
 - Teacher Evaluation Sheet
-

Instructions

1. Review the AI-generated project plan.
2. Arrange the project into logical stages.
3. Create a simple project timeline.
4. Prepare a checklist of tasks to be completed.
5. Assign responsibilities if working in a group.

Project Timeline Worksheet

Stage	Task	Time Required
Stage 1	Select Topic	Day 1
Stage 2	Research Information	Day 2
Stage 3	Organize Data	Day 3
Stage 4	Prepare Report/Presentation	Day 4
Stage 5	Final Review & Submission	Day 5

Project Checklist

Task	Completed (✓)
Topic Selected	☐
Research Completed	☐
Data Organized	☐
Report Prepared	☐
Presentation Ready	☐

Discussion Questions

1. Why is project planning important?
 2. How did AI help organize your project?
 3. Why should every project have a timeline?
 4. How do checklists improve project management?
-

Teacher Observation Checklist

- ☒ Organizes project tasks effectively.
- ☒ Creates a logical timeline.
- ☒ Demonstrates planning skills.
- ☒ Participates actively.

Activity 3: Present the Project Plan & Self-Reflection (3 Minutes)

Objective

To help students present their AI-assisted project plan, explain their planning process, and reflect on the benefits of AI in project management.

Materials Required

- Project Plan
 - Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Present your project plan in **1 minute**.
 2. Explain:
 - Project title
 - Objectives
 - Activities
 - Timeline
 3. Complete the reflection worksheet.
 4. Share one benefit and one limitation of using AI for project planning.
-

Reflection Worksheet

Answer the following questions:

1. What project topic did you choose?

2. What are the main objectives of your project?

3. How did AI help you create the project plan?

4. Why is organizing project tasks important?

5. What is one responsible AI practice you followed during this activity?

Self-Assessment Checklist

Skill	Yes Needs Practice	
I selected an appropriate project topic.	☐	☐
I wrote an effective AI prompt.	☐	☐
I prepared a project timeline.	☐	☐
I organized project tasks clearly.	☐	☐
I presented my project plan confidently.	☐	☐

Teacher Observation Checklist

- ☒ Explains project objectives clearly.
 - ☒ Demonstrates good planning skills.
 - ☒ Reflects thoughtfully on AI use.
 - ☒ Participates actively.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
AI-Assisted Project Planning	20
Project Organization & Timeline	20
Task Management & Checklist	20
Project Presentation	20
Participation & Reflection	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Uses AI tools to create a structured project plan.
 - ✓ Organizes project objectives, tasks, and timeline effectively.
 - ✓ Demonstrates logical planning and time management skills.
 - ✓ Presents the project plan confidently and clearly.
 - ✓ Applies responsible AI practices and actively participates throughout the practical activity.
-

Practical Time Distribution

Activity	Duration
Create a Project Plan Using AI	4 Minutes
Organize Project Tasks & Timeline	3 Minutes
Present the Project Plan & Self-Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Use AI tools to generate a **structured project plan** for an academic topic.
- Define **project objectives, activities, resources, timelines, and expected outcomes**.

- Organize project tasks using checklists and timelines for effective project management.
- Present a project plan confidently using clear communication and logical sequencing.
- Reflect on the advantages and limitations of AI-assisted project planning.
- Apply AI-supported planning and organizational skills in **school projects, research assignments, presentations, and collaborative learning activities.**
