

Chapter 2: Prompt Engineering & AI Content Creation

Class 9: Practical / Activities (10 Minutes)

Topic: Design AI Image Prompts for Creative Content

Activity 1: Design AI Image Prompts for Creative Content (4 Minutes)

Objective

To help students learn how to write detailed AI image prompts that generate creative, professional, and visually appealing digital content for educational, branding, and presentation purposes.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Image Generation Tool (ChatGPT Image Generator, Adobe Firefly, Canva AI, Microsoft Designer, Google Gemini, etc.)
 - Student Image Prompt Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open an AI image generation tool.
2. Select one creative design topic from the list below.
3. Write a detailed image prompt including:
 - Subject
 - Style
 - Background

- Colors
 - Lighting
 - Image Quality
4. Generate the image using AI.
 5. Observe the generated image carefully.
 6. Improve the prompt if required and generate a better version.
 7. Record the final prompt in the worksheet.

Suggested Design Topics

- Environmental Awareness Poster
- Artificial Intelligence in Education
- Cyber Safety Campaign
- Water Conservation Poster
- Renewable Energy Banner
- Healthy Lifestyle Infographic
- School Science Exhibition Poster
- Space Exploration Illustration
- Digital Citizenship Campaign
- Future Smart Classroom

Sample AI Image Prompt

Prompt:

"Create a professional educational poster on Water Conservation featuring students planting trees near a clean river, modern flat illustration style, blue and green color theme, bright daylight, high-quality 4K resolution, suitable for a Class X school awareness campaign."

Student Image Prompt Worksheet

Task	Completed (✓)
Topic Selected	☐
Image Prompt Written	☐
AI Image Generated	☐
Prompt Refined	☐
Final Image Selected	☐

Task	Completed (✓)
Worksheet Completed	☐

Student Activity Checklist

Students should:

- ✓ Select an appropriate design topic.
 - ✓ Write a detailed AI image prompt.
 - ✓ Generate a creative image.
 - ✓ Improve the prompt if necessary.
 - ✓ Save the best version.
-

Teacher Observation Checklist

- ✓ Writes a detailed image prompt.
 - ✓ Includes all prompt components.
 - ✓ Generates creative content successfully.
 - ✓ Refines prompts effectively.
-

Activity 2: Compare and Improve AI Image Prompts (3 Minutes)

Objective

To help students understand how adding details to an image prompt improves the quality and accuracy of AI-generated images.

Materials Required

- AI Image Tool
 - Prompt Comparison Worksheet
 - Teacher Evaluation Sheet
-

Instructions

1. Write one simple image prompt.
 2. Rewrite it as a detailed image prompt.
 3. Generate images using both prompts.
 4. Compare:
 - Image quality
 - Creativity
 - Accuracy
 - Visual appeal
 5. Record your observations.
-

Example

Basic Prompt

"Draw a school poster."

Improved Prompt

"Design a modern educational poster for a School Science Exhibition with students presenting robotics projects, blue and white color theme, clean typography, flat illustration style, bright classroom background, high-resolution 4K quality."

Prompt Comparison Worksheet

Evaluation Criteria	Basic Prompt	Improved Prompt
Clear Subject	☐	☐
Style Mentioned	☐	☐
Background Included	☐	☐
Colors Specified	☐	☐

Evaluation Criteria	Basic Prompt	Improved Prompt
Better Image Quality	☐	☐
More Creative Output	☐	☐

Discussion Questions

1. Which prompt produced the better image?
 2. Why did the detailed prompt generate a better result?
 3. Which prompt component improved the image the most?
 4. How can prompt refinement improve creative content?
-

Teacher Observation Checklist

- ☒ Identifies differences between prompts.
 - ☒ Explains image improvements.
 - ☒ Uses prompt refinement correctly.
 - ☒ Participates actively.
-

Activity 3: Present the Creative Design & Reflection (3 Minutes)

Objective

To help students present their AI-generated creative content, explain their prompt-writing strategy, and reflect on the ethical use of AI-generated images.

Materials Required

- AI-Generated Image
- Reflection Worksheet
- Teacher Observation Sheet

Instructions

1. Present your generated image to the class.
 2. Explain:
 - Design topic
 - Prompt used
 - Style selected
 - Improvements made
 3. Complete the reflection worksheet.
 4. Share one responsible AI practice you followed.
-

Reflection Worksheet

Answer the following questions:

1. What creative topic did you choose?

2. Write your final AI image prompt.

3. Which design style did you choose?

4. What improvements did you make to your prompt?

5. Why is it important to use AI-generated images responsibly?

Self-Assessment Checklist

Skill	Yes	Needs Practice
I wrote a detailed image prompt.	☐	☐
I included subject, style, and background.	☐	☐
I improved my prompt after reviewing the image.	☐	☐
I created a professional AI-generated design.	☐	☐
I understand ethical AI image creation.	☐	☐

Teacher Observation Checklist

- ☒ Explains image prompt clearly.
 - ☒ Demonstrates creativity.
 - ☒ Applies prompt refinement.
 - ☒ Uses AI responsibly.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
Image Prompt Writing	20
Creativity & Prompt Structure	20
AI Image Generation	20
Prompt Refinement & Improvement	20
Presentation, Reflection & Participation	20
Total	100 Marks

Teacher Observation Checklist

- ☒ Writes detailed and well-structured AI image prompts.
- ☒ Generates creative visual content using AI tools.
- ☒ Improves image quality through prompt refinement.

- ✓ Demonstrates creativity, responsible AI usage, and ethical digital practices.
 - ✓ Presents AI-generated creative content confidently and actively participates in practical activities.
-

Practical Time Distribution

Activity	Duration
Design AI Image Prompts	4 Minutes
Compare & Improve Image Prompts	3 Minutes
Present Design & Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Write **detailed and effective AI image prompts** for posters, illustrations, banners, logos, and educational content.
- Apply prompt engineering techniques by including **subject, style, background, color theme, lighting, and image quality** in prompts.
- Generate high-quality AI images suitable for **school projects, presentations, campaigns, and creative media**.
- Compare, evaluate, and refine prompts to improve AI-generated visual outputs.
- Demonstrate creativity, visual communication skills, and responsible use of AI-generated images.
- Apply AI image prompt writing skills confidently in **digital content creation, branding, presentations, and educational projects**.
