

Chapter 3: Digital Content Creation

Class 17: Practical / Activities (10 Minutes)

Topic: Create a Short Educational Video Using AI Tools

Activity 1: Create a Short Educational Video Using AI Tools (4 Minutes)

Objective

To help students create a short educational video using AI-powered video creation tools by applying script writing, storyboarding, visual storytelling, and basic video editing techniques.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Video Creation Tools (Canva AI, CapCut AI, InVideo AI, Adobe Express, Clipchamp, VEED.IO, Pika, Runway ML)
 - Copyright-Free Images, Videos, Music & Icons
 - Student Video Planning Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Open an AI-powered video creation tool.
2. Select a **video template** (Landscape or Vertical).
3. Choose one educational topic from the list below.
4. Create a **30–60 second educational video** including:
 - Title Screen
 - Introduction
 - Main Content (3–5 Key Points)
 - Relevant Images or Video Clips
 - AI Voice-over or Recorded Narration

- Background Music
 - Closing Message / Thank You
 - 5. Add subtitles and smooth transitions.
 - 6. Preview the video and make corrections if required.
 - 7. Export the video in **MP4 format**.
-

Suggested Educational Video Topics

- Artificial Intelligence
 - Cyber Safety
 - Water Conservation
 - Climate Change
 - Renewable Energy
 - Healthy Lifestyle
 - Digital Citizenship
 - Plastic Pollution
 - Space Exploration
 - Environmental Protection
-

Student Video Planning Worksheet

Task	Completed (✓)
Topic Selected	☐
Video Template Selected	☐
Script Prepared	☐
Images/Video Clips Added	☐
Voice-over Added	☐
Music & Transitions Added	☐
Video Exported	☐

Student Activity Checklist

Students should:

- ✓ Select an educational topic.
- ✓ Prepare a short video script.

- ✓ Add visuals and voice-over.
 - ✓ Apply transitions and background music.
 - ✓ Export the completed video.
-

Teacher Observation Checklist

- ✓ Uses AI video tools effectively.
 - ✓ Plans the video logically.
 - ✓ Applies visual storytelling techniques.
 - ✓ Produces a clear and engaging educational video.
-

Activity 2: Enhance the Video Using AI Features (3 Minutes)

Objective

To help students improve the quality of their educational video by using AI-powered editing features such as subtitles, transitions, voice enhancement, and visual effects.

Materials Required

- Completed Video Project
 - AI Video Editing Tool
 - Evaluation Worksheet
 - Teacher Evaluation Sheet
-

Instructions

1. Open the completed video project.
2. Improve the video using AI features:

- Automatic Subtitles
 - AI Voice Enhancement
 - Background Noise Reduction
 - Scene Transitions
 - Text Animations
 - Visual Effects
3. Check that audio and visuals are synchronized.
 4. Preview and export the final video.

Video Evaluation Worksheet

Evaluation Criteria	Yes	Needs Improvement
Clear Title Screen	☐	☐
Well-Organized Content	☐	☐
High-Quality Visuals	☐	☐
Voice-over is Clear	☐	☐
Subtitles Added	☐	☐
Smooth Transitions	☐	☐

Discussion Questions

1. Which AI video tool did you use?
 2. Which AI feature improved your video the most?
 3. Why are subtitles important in educational videos?
 4. How did AI help you create the video more efficiently?
-

Teacher Observation Checklist

- ☒ Uses AI editing features effectively.
 - ☒ Improves video quality.
 - ☒ Demonstrates creativity.
 - ☒ Applies video editing principles correctly.
-

Activity 3: Present Your Educational Video & Reflection (3 Minutes)

Objective

To help students confidently present their educational video, explain the creative process, and reflect on the importance of AI-assisted video production.

Materials Required

- Final Educational Video
 - Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Play your **30–60 second educational video** for the class.
 2. Explain:
 - Topic selected
 - AI video tool used
 - Script and storyboard
 - AI features used
 - Editing techniques applied
 3. Receive peer feedback.
 4. Complete the reflection worksheet.
 5. Suggest one improvement for future video projects.
-

Reflection Worksheet

Answer the following questions:

1. What topic did you choose?
-

2. Which AI video creation tool did you use?

3. Which AI feature helped improve your video the most?

4. What challenge did you face while creating the video?

5. Why are educational videos an effective way to communicate information?

Self-Assessment Checklist

Skill	Yes	Needs Practice
I created a short educational video.	☐	☐
I used AI video creation tools effectively.	☐	☐
I added voice-over, subtitles, and transitions.	☐	☐
I organized the content clearly.	☐	☐
I presented my video confidently.	☐	☐

Teacher Observation Checklist

- ☒ Explains the video creation process clearly.
- ☒ Demonstrates creativity and storytelling.
- ☒ Uses AI tools responsibly.
- ☒ Participates actively during presentation and discussion.

Mini Practical Assessment Rubric

Assessment Area	Marks
Video Planning & Script Writing	20
Video Design & Editing Quality	20
Creativity & Visual Storytelling	20
Use of AI Tools & Video Production Techniques	20
Presentation, Reflection & Participation	20
Total	100 Marks

Teacher Observation Checklist

- ☒ Demonstrates proficiency in creating educational videos using AI-powered video creation tools.
 - ☒ Organizes content using effective script writing, storyboarding, voice-over, visuals, subtitles, and transitions.
 - ☒ Applies video editing principles to produce engaging and informative educational content.
 - ☒ Uses AI responsibly while ensuring originality, accuracy, and ethical digital content creation.
 - ☒ Presents the completed video confidently, responds to feedback, and actively participates in classroom discussions.
-

Practical Time Distribution

Activity	Duration
Create a Short Educational Video Using AI Tools	4 Minutes
Enhance the Video Using AI Features	3 Minutes
Present Your Educational Video & Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Create **30–60 second educational videos** using AI-powered video creation and editing tools.
- Apply the complete **video production workflow**, including planning, script writing, storyboarding, recording, editing, and publishing.
- Enhance videos using AI features such as **automatic subtitles, voice enhancement, transitions, animations, and background music**.
- Develop engaging educational content using effective visual storytelling and multimedia communication techniques.
- Demonstrate ethical and responsible use of AI while creating original and informative digital videos.
- Build practical skills in video production for **education, presentations, awareness campaigns, digital marketing, and social media content creation**.
