

Chapter 1: AI Productivity Tools

Chapter-End Activity

Activity 1: Individual – AI Productivity Quiz & Mini AI Assessment

Objective

To assess each student's understanding of AI productivity tools, research, note-making, summarization, study planning, presentation planning, responsible AI use, and fact-checking through a written quiz and practical AI task.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Productivity Tool (ChatGPT, Google Gemini, Microsoft Copilot, etc.)
 - AI Productivity Quiz Worksheet
 - Practical Assessment Sheet
 - Teacher Evaluation Sheet
-

Instructions

1. Students complete the **AI Productivity Quiz** individually.
 2. After the quiz, each student completes one practical AI productivity task using an approved AI tool.
 3. Students review and verify the AI-generated output before submitting their work.
 4. The teacher evaluates both theoretical knowledge and practical skills.
-

Part A – AI Productivity Quiz

Multiple Choice Questions

1. What is the primary purpose of AI productivity tools?

- a) Only entertainment
 - b) Improve productivity and support learning ☒
 - c) Play games
 - d) Store music
-

2. Which AI tool can help generate study notes and summaries?

- a) ChatGPT ☒
 - b) Calculator
 - c) Paint
 - d) Media Player
-

3. What should students do before using AI-generated information?

- a) Copy it directly
 - b) Verify it using trusted sources ☒
 - c) Ignore it
 - d) Share it without checking
-

4. Which of the following is an example of responsible AI use?

- a) Sharing passwords with AI
- b) Copying AI responses without understanding

c) Verifying information and protecting personal data 

d) Ignoring privacy rules

5. Which AI feature helps reduce a long passage into important points?

a) Animation

b) Summarization 

c) Gaming

d) Video Editing

Part B – Short Answer Questions

1. What is an AI productivity tool?
 2. Name any four AI productivity tools.
 3. How can AI help students with research?
 4. Why is fact-checking important?
 5. Mention four responsible AI practices.
-

Mini AI Assessment

Each student completes **one** of the following practical tasks:

Option A – AI Research

Use AI to research a topic and write **five important points**.

Option B – AI Summarization

Summarize a passage into **five simple bullet points**.

Option C – AI Study Planning

Create a **one-week study plan** using AI.

Option D – AI Presentation Outline

Generate a **5-slide presentation outline** on a given topic.

Teacher Observation Checklist

- ✓ Writes effective AI prompts.
 - ✓ Uses AI productivity tools correctly.
 - ✓ Verifies AI-generated information.
 - ✓ Completes the assigned task independently.
 - ✓ Demonstrates responsible AI usage.
-

Activity 2: Team – AI Productivity Workshop & Research Challenge

Objective

To encourage teamwork, critical thinking, research skills, and responsible AI usage through collaborative learning activities.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Productivity Tool
 - Research Worksheet
 - Chart Paper or Presentation Slides
 - Teacher Evaluation Sheet
-

Instructions

1. Divide students into **groups of 3–5 members**.
 2. Each team selects or is assigned one research topic.
 3. Use AI to:
 - Collect information.
 - Generate key points.
 - Summarize the topic.
 - Verify facts using trusted sources.
 4. Prepare a **3–5 slide presentation** or a chart.
 5. Present the findings to the class.
-

Suggested Research Topics

- Artificial Intelligence
 - Climate Change
 - Water Conservation
 - Renewable Energy
 - Digital Citizenship
 - Cyber Safety
 - Space Exploration
 - Plastic Pollution
 - Healthy Lifestyle
 - Smart Cities
-

Workshop Tasks

Each team should:

- Research the assigned topic using AI.
 - Prepare **5–7 key points**.
 - Create a short summary.
 - Verify at least **three facts** using textbooks or trusted educational sources.
 - Design a presentation or chart.
 - Present the findings within **3–5 minutes**.
-

Group Discussion Questions

1. How did AI help your team complete the research?
 2. Which AI tool was most useful and why?
 3. How did your team verify the AI-generated information?
 4. What challenges did your team face while using AI?
 5. How can AI improve learning in the future?
-

Teacher Observation Checklist

- ☒ Collaborates effectively with team members.
 - ☒ Uses AI responsibly.
 - ☒ Verifies information accurately.
 - ☒ Organizes research clearly.
 - ☒ Presents findings confidently.
-

Activity 3: Recognition – Best AI Researcher Award

Objective

To recognize students who demonstrate excellent research skills, responsible AI usage, and critical thinking.

Award Criteria

Students are evaluated based on:

- Effective AI Prompt Writing
- Research Quality
- Fact Checking
- Information Organization
- Critical Thinking
- Responsible AI Use
- Accuracy

- Creativity
 - Presentation Skills
 - Overall Performance
-

Recognition

Best AI Researcher Award

Awarded to the student who demonstrates outstanding research skills, effective AI usage, accurate fact verification, and excellent presentation of information.

Activity 4: Recognition – Best AI Productivity Team Award

Objective

To appreciate the team that demonstrates excellent collaboration, responsible AI practices, and effective research presentation.

Award Criteria

Teams are evaluated on:

- Teamwork
 - Research Accuracy
 - AI Productivity Skills
 - Fact Verification
 - Presentation Quality
 - Equal Participation
 - Creativity
 - Time Management
 - Communication
 - Overall Performance
-

Recognition

Best AI Productivity Team Award

Awarded to the team that demonstrates outstanding collaboration, accurate research, responsible AI use, and effective presentation skills.

Activity 5: Practical Evaluation

Objective

To evaluate students' practical understanding of AI productivity tools and their ability to apply AI responsibly in academic tasks.

Practical Tasks

Students should demonstrate the ability to:

- Use AI for research.
 - Create summaries and study notes.
 - Develop a study plan.
 - Prepare a presentation outline.
 - Write effective AI prompts.
 - Verify AI-generated information.
 - Follow responsible AI practices.
 - Organize information clearly.
 - Present findings confidently.
 - Apply critical thinking throughout the task.
-

Practical Evaluation Rubric

Assessment Area	Marks
AI Prompt Writing	10
Research & Information Gathering	10
Note-making & Summarization	10
Study Planning	10
Presentation Outline	10
Fact Checking & Responsible AI Use	10

Assessment Area	Marks
Creativity & Organization	10
Critical Thinking	10
Communication & Presentation	10
Overall Practical Performance	10
Total	100 Marks

Teacher Observation Checklist

- ✓ Uses AI productivity tools confidently and responsibly.
 - ✓ Verifies information using trusted educational sources.
 - ✓ Demonstrates critical thinking and ethical AI practices.
 - ✓ Organizes research, notes, and presentations effectively.
 - ✓ Works collaboratively and communicates ideas clearly.
 - ✓ Completes all practical tasks accurately and independently.
-

Chapter Learning Outcomes

After completing the **Chapter-End Activities** for **Chapter 1: AI Productivity Tools**, students will be able to:

- Use AI productivity tools for **research, note-making, summarization, study planning, and presentation preparation.**
- Write clear and effective AI prompts to obtain meaningful and accurate results.
- Verify AI-generated information using trusted sources and apply responsible AI practices.
- Demonstrate critical thinking, digital literacy, and ethical decision-making while using AI.
- Collaborate effectively in team-based AI research and presentation activities.
- Apply AI productively, safely, and responsibly to support academic learning and real-world problem-solving.
