

Chapter 1: AI Productivity Tools

Class 1: Practical / Activities (10 Minutes)

Topic: Explore an AI Tool Interface

Activity 1: Explore an AI Productivity Tool Interface (4 Minutes)

Objective

To help students become familiar with the interface, basic features, and navigation of an AI productivity tool. Students will learn how to access the tool, identify its main functions, and understand how AI assists in learning and productivity.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Tool (ChatGPT, Google Gemini, Microsoft Copilot or any school-approved AI tool)
 - Student Activity Worksheet
 - Projector (Optional)
 - Teacher Observation Sheet
-

Instructions

1. Open the AI productivity tool in a web browser or application.
 2. Sign in (if required) using the teacher's or school's account.
 3. Observe the main interface carefully.
 4. Identify different sections of the AI tool.
 5. Discuss the purpose of each feature with your teacher.
 6. Complete the observation worksheet.
-

AI Interface Observation Worksheet

Interface Component Observed (✓)		Purpose
Home Screen	☐	Starting page of the AI tool
Chat/Input Box	☐	Type questions or prompts
Send Button	☐	Submit the prompt
AI Response Area	☐	Displays AI-generated answers
New Chat Button	☐	Starts a new conversation
Menu/History Panel	☐	Shows previous conversations
Settings/Profile	☐	User preferences and account settings
Help/Support	☐	Assistance and user guidance

Student Tasks

Students should:

- ✓ Open the AI tool.
 - ✓ Locate the input box.
 - ✓ Find the "New Chat" option.
 - ✓ Identify where AI responses appear.
 - ✓ Observe the menu and settings.
 - ✓ Discuss the purpose of each feature.
-

Teacher Observation Checklist

- ✓ Identifies the interface correctly.
- ✓ Navigates the AI tool independently.
- ✓ Participates actively in the discussion.
- ✓ Completes the worksheet accurately.

Activity 2: Explore Basic AI Features (3 Minutes)

Objective

To understand the basic functions of AI productivity tools and how they assist students in learning and completing academic tasks.

Materials Required

- AI Tool
 - Activity Sheet
 - Teacher Evaluation Sheet
-

Instructions

Students explore different AI features demonstrated by the teacher.

Observe how AI can:

- Answer questions.
 - Explain difficult concepts.
 - Summarize information.
 - Generate ideas.
 - Correct grammar.
 - Create study notes.
 - Help prepare presentations.
-

Feature Identification Activity

AI Feature	Observed (✓)
Answer Questions	☐
Explain Concepts	☐
Summarize Text	☐
Generate Study Notes	☐

AI Feature	Observed (✓)
Create Ideas	☐
Improve Writing	☐
Assist with Presentations	☐

Discussion Questions

1. Which AI feature did you find most useful?
 2. How can AI help students in school?
 3. Which feature would you use while preparing for exams?
 4. Why should AI be used responsibly?
-

Teacher Observation Checklist

- ✓ Identifies AI features correctly.
 - ✓ Understands the purpose of each feature.
 - ✓ Participates in classroom discussion.
 - ✓ Demonstrates curiosity and interest.
-

Activity 3: Simple AI Interaction Activity (3 Minutes)

Objective

To help students practice interacting with an AI tool by entering simple prompts and observing the responses.

Materials Required

- AI Productivity Tool
- Prompt Practice Sheet
- Teacher Observation Sheet

Instructions

1. Students type **one simple prompt** into the AI tool.
 2. Read the AI response carefully.
 3. Discuss whether the response is useful and easy to understand.
 4. Compare responses with classmates.
-

Sample Prompts

- What is Artificial Intelligence?
 - Explain photosynthesis in simple words.
 - Give five study tips for Class IX students.
 - Write five points about water conservation.
 - What are the benefits of reading books?
-

Student Activity Checklist

Students should:

- ✓ Type a clear question.
 - ✓ Read the AI response carefully.
 - ✓ Identify the main idea.
 - ✓ Share one interesting fact with the class.
 - ✓ Ask one follow-up question if needed.
-

Teacher Observation Checklist

- ✓ Writes a clear prompt.
- ✓ Understands the AI response.
- ✓ Interacts with the AI tool confidently.
- ✓ Participates actively in the activity.

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Tool Navigation	20
Interface Identification	20
Understanding AI Features	20
AI Interaction & Prompt Writing	20
Participation & Observation	20
Total	100 Marks

Teacher Observation Checklist

- ☒ Navigates the AI interface independently.
 - ☒ Identifies the major features correctly.
 - ☒ Uses AI responsibly during the activity.
 - ☒ Demonstrates confidence while interacting with AI.
 - ☒ Participates actively throughout the practical session.
-

Practical Time Distribution

Activity	Duration
Explore AI Tool Interface	4 Minutes
Explore Basic AI Features	3 Minutes
Simple AI Interaction Activity	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Identify the **main interface components** of an AI productivity tool, including the chat box, response area, menu, and settings.
- Navigate an AI tool confidently and understand its basic functions.
- Explore how AI can assist with **research, learning, writing, summarization, and presentations**.
- Write simple and meaningful prompts to interact effectively with an AI system.
- Interpret AI-generated responses and discuss their usefulness.
- Demonstrate responsible and safe use of AI tools in educational activities while following ethical digital practices.
