

Chapter 1: AI Productivity Tools

Class 2: Practical / Activities (10 Minutes)

Topic: Generate Research Points Using AI

Activity 1: AI Research Exploration (4 Minutes)

Objective

To help students learn how to use an AI productivity tool to gather important information, identify key research points, and organize information for school assignments and projects.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Productivity Tool (ChatGPT, Gemini, Microsoft Copilot, etc.)
 - Student Research Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open the AI productivity tool.
 2. Select one research topic provided by the teacher.
 3. Type a clear research prompt into the AI tool.
 4. Read the AI-generated response carefully.
 5. Identify and write **5–7 important research points**.
 6. Discuss the collected information with classmates.
-

Sample Research Topics

- Artificial Intelligence
 - Water Conservation
 - Renewable Energy
 - Space Exploration
 - Climate Change
 - Healthy Food Habits
 - Digital Safety
 - Plastic Pollution
 - Importance of Trees
 - Indian Space Missions
-

Sample AI Prompts

- Explain **Artificial Intelligence** in simple points for Class IX.
 - List the **causes and effects of climate change**.
 - Give **five important facts about renewable energy**.
 - Explain the **importance of water conservation**.
 - Summarize the **benefits of healthy eating**.
-

Research Observation Worksheet

Research Item	Student Response
Research Topic	_____
AI Prompt Used	_____
Main Research Point 1	_____
Main Research Point 2	_____
Main Research Point 3	_____
Main Research Point 4	_____
Main Research Point 5	_____
One New Fact Learned	_____

Student Activity Checklist

Students should:

- ✓ Select one research topic.
 - ✓ Write a clear AI prompt.
 - ✓ Read the AI response carefully.
 - ✓ Identify important points.
 - ✓ Record information neatly.
 - ✓ Share findings with classmates.
-

Teacher Observation Checklist

- ✓ Uses an appropriate AI prompt.
 - ✓ Identifies key research points.
 - ✓ Reads AI responses carefully.
 - ✓ Participates actively.
-

Activity 2: Organize Research Information (3 Minutes)

Objective

To help students organize AI-generated information into a simple and logical format.

Materials Required

- Research Notes Worksheet

- Pencil
 - Teacher Evaluation Sheet
-

Instructions

1. Review the research points collected in Activity 1.
 2. Arrange the information under suitable headings.
 3. Remove repeated or unnecessary information.
 4. Highlight the most important ideas.
-

Research Organization Template

Heading	Details
Topic	_____
Definition	_____
Main Points	_____
Advantages / Importance	_____
Interesting Fact	_____
Conclusion	_____

Discussion Questions

1. Which research point was the most important?
 2. Was all the AI information useful?
 3. How can organized notes help in project work?
 4. Why should research information be arranged under headings?
-

Teacher Observation Checklist

- ☒ Organizes information logically.
- ☒ Uses proper headings.
- ☒ Identifies key ideas.
- ☒ Completes the worksheet independently.

Activity 3: Fact Verification Challenge (3 Minutes)

Objective

To help students understand the importance of verifying AI-generated information using trusted sources.

Materials Required

- AI Research Notes
 - School Textbook
 - Library Book or Teacher Reference
 - Fact-Checking Worksheet
 - Teacher Evaluation Sheet
-

Instructions

1. Choose **two research points** from the AI response.
 2. Compare them with:
 - School textbook
 - Teacher's notes
 - Educational website (if available)
 3. Mark each statement as **Verified** or **Needs Verification**.
 4. Discuss why checking information is important.
-

Fact Verification Worksheet

Research Statement Verified (✓) Needs Verification (✓)

Statement 1	☐	☐
Statement 2	☐	☐
Statement 3	☐	☐

Student Tasks

Students should:

- ✓ Compare AI information with trusted sources.
 - ✓ Identify accurate information.
 - ✓ Correct any inaccurate details.
 - ✓ Explain why fact-checking is important.
-

Teacher Observation Checklist

- ✓ Verifies information correctly.
 - ✓ Uses trusted learning resources.
 - ✓ Demonstrates critical thinking.
 - ✓ Understands responsible AI use.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Prompt Writing	20
Research Point Identification	20
Information Organization	20
Fact Verification	20
Participation & Communication	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Writes effective AI prompts.
- ✓ Collects relevant research information.
- ✓ Organizes notes clearly.

- ✓ Verifies AI-generated content responsibly.
 - ✓ Participates confidently throughout the activity.
-

Practical Time Distribution

Activity	Duration
AI Research Exploration	4 Minutes
Organize Research Information	3 Minutes
Fact Verification Challenge	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Use AI productivity tools to generate relevant **research points** on academic topics.
- Write clear and effective AI prompts to obtain useful information.
- Identify, organize, and summarize key research findings into structured notes.
- Verify AI-generated information using textbooks, teachers, and other trusted sources.
- Apply critical thinking while evaluating the accuracy of AI responses.
- Demonstrate responsible AI usage and effective research skills for school assignments, projects, and presentations.
