

Chapter 1: AI Productivity & Research

Class 5: Practical / Activities (10 Minutes)

Topic: Verify AI-generated Information Using Reliable Sources

Activity 1: Verify AI-Generated Information (4 Minutes)

Objective

To help students learn how to verify AI-generated information using reliable sources, identify incorrect or misleading content, and develop critical thinking and fact-checking skills.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Tool (ChatGPT, Google Gemini, Microsoft Copilot or Perplexity AI)
 - School Textbook
 - Student Verification Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open an AI productivity tool.
2. Choose one academic topic from the list below.
3. Ask the AI to explain the topic.

Sample Prompt:

"Explain the causes and effects of climate change suitable for Class X students with five key points."

4. Read the AI-generated response carefully.
 5. Verify each important fact using:
 - School textbook
 - School notes
 - Educational reference books
 - Official educational websites (if available)
 6. Mark each statement as **Verified**, **Needs Correction**, or **Not Found**.
 7. Correct any inaccurate information and write the final verified version.
-

Suggested Verification Topics

- Artificial Intelligence
 - Renewable Energy
 - Climate Change
 - Water Conservation
 - Digital Citizenship
 - Cyber Safety
 - Human Digestive System
 - Solar System
 - Indian Constitution
 - Environmental Pollution
-

Student Verification Worksheet

Task	Completed (✓)
Topic Selected	☐
AI Prompt Entered	☐
AI Response Read	☐
Information Verified	☐
Corrections Made	☐
Final Version Prepared	☐

Student Activity Checklist

Students should:

- ✓ Select an appropriate academic topic.

- ✓ Write a clear AI prompt.
 - ✓ Read the AI response carefully.
 - ✓ Verify information using reliable sources.
 - ✓ Correct inaccurate information.
-

Teacher Observation Checklist

- ✓ Selects an appropriate topic.
 - ✓ Uses AI responsibly.
 - ✓ Verifies information correctly.
 - ✓ Demonstrates critical thinking.
-

Activity 2: Compare AI Information with Reliable Sources (3 Minutes)

Objective

To help students compare AI-generated content with trusted educational resources and recognize the importance of using authentic information.

Materials Required

- School Textbook
 - Teacher Notes
 - Verification Comparison Worksheet
 - Teacher Evaluation Sheet
-

Instructions

1. Compare the AI response with a textbook or teacher-provided material.
 2. Check whether the AI information is:
 - Correct
 - Complete
 - Easy to understand
 3. Identify any missing or incorrect facts.
 4. Rewrite the corrected information in your own words.
-

Verification Comparison Worksheet

	Information Verified	Needs Correction	Source Used
Definition	☐	☐	_____
Key Facts	☐	☐	_____
Examples	☐	☐	_____
Statistics	☐	☐	_____
Conclusion	☐	☐	_____

Discussion Questions

1. Why should AI-generated information always be verified?
 2. Which source did you use to verify the information?
 3. Did you find any incorrect or incomplete facts?
 4. Why are textbooks and official educational resources considered reliable?
-

Teacher Observation Checklist

- ☒ Compares AI information effectively.
 - ☒ Uses reliable reference materials.
 - ☒ Identifies incorrect information.
 - ☒ Explains corrections clearly.
-

Activity 3: Reflection on Responsible AI Use (3 Minutes)

Objective

To encourage students to reflect on responsible AI usage, academic honesty, and the importance of verifying information before using it in assignments and projects.

Materials Required

- Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Complete the reflection worksheet individually.
 2. Share one lesson learned from the verification activity.
 3. Discuss how responsible AI use improves learning.
 4. Present one rule you will follow while using AI in future assignments.
-

Reflection Worksheet

Answer the following questions:

1. What topic did you verify today?

2. Which source did you use to verify the information?

3. Did you find any incorrect or incomplete information? Explain.

4. Why is fact checking important before submitting assignments?

5. Write one responsible AI rule you will always follow.

Self-Assessment Checklist

Skill	Yes	Needs Practice
I used AI to collect information.	☐	☐
I verified information using reliable sources.	☐	☐
I corrected incorrect information.	☐	☐
I understand responsible AI use.	☐	☐
I can explain why fact checking is important.	☐	☐

Teacher Observation Checklist

- ☒ Reflects thoughtfully on responsible AI use.
- ☒ Explains the importance of verification.
- ☒ Participates actively in the discussion.
- ☒ Demonstrates academic honesty.

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Information Collection	20
Fact Verification Skills	20
Comparison with Reliable Sources	20
Reflection & Responsible AI Use	20
Participation & Critical Thinking	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Uses AI tools appropriately to gather information.
 - ✓ Verifies AI-generated content using trusted educational sources.
 - ✓ Identifies and corrects inaccurate or incomplete information.
 - ✓ Demonstrates responsible AI practices and academic integrity.
 - ✓ Participates actively and applies critical thinking throughout the activity.
-

Practical Time Distribution

Activity	Duration
Verify AI-Generated Information	4 Minutes
Compare with Reliable Sources	3 Minutes
Reflection on Responsible AI Use	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Verify AI-generated information using **textbooks, teacher notes, educational references, and official sources**.
- Differentiate between **accurate, inaccurate, and incomplete** AI-generated information.
- Apply **fact-checking techniques** before using AI content in assignments, projects, and presentations.
- Demonstrate **responsible AI use**, academic honesty, and respect for reliable information sources.
- Improve **critical thinking, information evaluation, and digital literacy** skills.
- Use AI confidently as a learning assistant while ensuring all important information is **verified, accurate, and trustworthy**.
