

Chapter 1: AI Productivity & Research

Class 6: Practical / Activities (10 Minutes)

Topic: AI Productivity Practice, Revision & Practical Assessment

Activity 1: AI Productivity Practice & Revision (4 Minutes)

Objective

To help students revise and apply all the AI productivity skills learned in Chapter 1 by completing a complete AI-assisted learning task involving research, summarization, project planning, and responsible AI use.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Tool (ChatGPT, Google Gemini, Microsoft Copilot or Perplexity AI)
 - Student Practical Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Select **one academic topic** from the list provided.
2. Use an AI tool to complete the following tasks:
 - Research the topic.
 - Summarize the information into **5 key points**.
 - Create a simple project plan.
 - Verify one important fact using a textbook or teacher-provided material.
3. Organize the information using headings and bullet points.
4. Review your work before submission.

Suggested Topics

- Artificial Intelligence
 - Renewable Energy
 - Water Conservation
 - Climate Change
 - Cyber Safety
 - Digital Citizenship
 - Plastic Pollution
 - Healthy Lifestyle
 - Sustainable Development
 - Space Exploration
-

Student AI Productivity Worksheet

Task	Completed (✓)
Topic Selected	☐
Research Completed	☐
Summary Prepared	☐
Project Plan Created	☐
Information Verified	☐
Final Review Completed	☐

Student Activity Checklist

Students should:

- ✓ Select a suitable topic.
- ✓ Use AI for research.
- ✓ Summarize important points.
- ✓ Create a project plan.
- ✓ Verify one important fact.

- ✓ Organize the work neatly.
-

Teacher Observation Checklist

- ✓ Uses AI confidently.
 - ✓ Completes all required tasks.
 - ✓ Organizes information properly.
 - ✓ Demonstrates responsible AI use.
-

Activity 2: Practical Assessment (3 Minutes)

Objective

To assess students' ability to independently use AI tools for academic productivity while applying responsible AI practices.

Materials Required

- Practical Assessment Sheet
 - Teacher Evaluation Sheet
-

Instructions

Students independently complete the following practical tasks:

1. Write one effective AI prompt.
 2. Research one academic topic using AI.
 3. Prepare a short summary.
 4. Create a simple project timeline.
 5. Verify one fact using a reliable source.
 6. Submit the completed worksheet.
-

Practical Assessment Worksheet

Assessment Task	Completed (✓)
AI Prompt Written	☐
Research Completed	☐
Summary Prepared	☐
Project Timeline Created	☐
Fact Verified	☐
Final Submission	☐

Discussion Questions

1. Which AI productivity skill was most useful?
 2. Why is fact checking important?
 3. How did AI improve your productivity?
 4. Which AI tool would you use for future projects?
-

Teacher Observation Checklist

- ☒ Demonstrates independent AI usage.
 - ☒ Completes all practical tasks.
 - ☒ Uses responsible AI practices.
 - ☒ Organizes work effectively.
-

Activity 3: Self-Assessment & Chapter Reflection (3 Minutes)

Objective

To help students evaluate their learning, identify strengths and areas for improvement, and reflect on the responsible use of AI in academic work.

Materials Required

- Self-Assessment Worksheet
 - Reflection Sheet
 - Teacher Observation Sheet
-

Instructions

1. Complete the self-assessment checklist.
 2. Reflect on your learning throughout the chapter.
 3. Write one strength and one area for improvement.
 4. Share one way you will use AI responsibly in future studies.
-

Reflection Worksheet

Answer the following questions:

1. Which AI productivity skill did you improve the most?

2. Which activity did you enjoy the most?

3. How will AI help you in future learning?

4. What responsible AI practice will you always follow?

5. What skill would you like to improve further?

Self-Assessment Checklist

Skill	Yes Needs Practice	
I can use AI for research.	☐	☐
I can summarize information using AI.	☐	☐
I can create a project plan using AI.	☐	☐
I can verify AI-generated information.	☐	☐
I understand responsible AI use.	☐	☐
I can organize information effectively.	☐	☐

Teacher Observation Checklist

- ☒ Completes self-assessment honestly.
 - ☒ Reflects thoughtfully on learning.
 - ☒ Demonstrates confidence using AI.
 - ☒ Participates actively.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Research & Information Collection	20
AI Summarization & Note-making	20
Project Planning & Organization	20
Fact Checking & Responsible AI Use	20
Participation, Reflection & Overall Performance	20
Total	100 Marks

Teacher Observation Checklist

- ☒ Demonstrates proficiency in using AI for research, summarization, and project planning.
- ☒ Verifies AI-generated information using reliable educational sources.

- ✓ Organizes information in a clear and structured manner.
 - ✓ Applies responsible AI practices, academic honesty, and critical thinking.
 - ✓ Participates actively and completes all practical activities with confidence.
-

Practical Time Distribution

Activity	Duration
AI Productivity Practice & Revision	4 Minutes
Practical Assessment	3 Minutes
Self-Assessment & Chapter Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Apply the complete **AI productivity workflow**, including research, note-making, summarization, project planning, and fact verification.
- Use AI tools effectively to complete academic tasks with improved efficiency and organization.
- Demonstrate responsible AI practices by verifying information, avoiding plagiarism, and using reliable sources.
- Organize research findings into clear notes, project plans, and structured reports.
- Evaluate their own learning through self-assessment and identify areas for continuous improvement.
- Demonstrate readiness for the **Chapter-End AI Productivity Challenge, practical evaluation, and future AI-assisted learning activities.**
