

Chapter 3: Digital Content Creation

Class 13: Practical / Activities (10 Minutes)

Topic: Explore Advanced Digital Content Creation Tools

Activity 1: Explore Advanced Digital Content Creation Tools (4 Minutes)

Objective

To help students explore and understand the features of modern AI-powered digital content creation tools used for designing posters, presentations, infographics, videos, social media graphics, and educational materials.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Digital Content Creation Tools (Canva AI, Adobe Express, Microsoft Designer, Google Gemini, ChatGPT, Gamma AI, Cap Cut AI, etc.)
 - Student Digital Tool Exploration Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open any **two AI-powered digital content creation tools**.
 2. Explore their features for **5–7 minutes**.
 3. Identify the types of content each tool can create.
 4. Compare the tools based on ease of use, features, AI assistance, and output quality.
 5. Record your observations in the worksheet.
 6. Share one interesting feature with the class.
-

Suggested AI Tools

- Canva AI
 - Adobe Express
 - Microsoft Designer
 - Google Gemini
 - ChatGPT
 - Gamma AI
 - Cap Cut AI
 - Adobe Firefly
 - Microsoft Copilot
 - Pixlr AI
-

Digital Tool Exploration Worksheet

Task	Completed (✓)
Two AI Tools Selected	☐
Features Explored	☐
Content Types Identified	☐
Tool Comparison Completed	☐
Best Tool Selected	☐
Worksheet Completed	☐

Student Activity Checklist

Students should:

- ✓ Explore at least two AI tools.
 - ✓ Identify major features.
 - ✓ Compare the tools.
 - ✓ Record observations.
 - ✓ Participate in class discussion.
-

Teacher Observation Checklist

- ✓ Explores AI tools confidently.
 - ✓ Identifies tool features correctly.
 - ✓ Compares tools effectively.
 - ✓ Demonstrates curiosity and participation.
-

Activity 2: Create Sample Digital Content Using AI (3 Minutes)

Objective

To help students create simple digital content using AI-powered tools and understand how different tools assist in content creation.

Materials Required

- AI Design Tool
 - Student Practice Worksheet
 - Teacher Evaluation Sheet
-

Instructions

1. Choose one AI tool.
2. Create **one simple digital content** such as:
 - Poster
 - Presentation Cover
 - Social Media Post
 - Infographic
3. Add:
 - Title
 - Image or Illustration
 - Short Description
 - Attractive Color Theme

4. Save the completed design.
 5. Write two features that helped you create the design.
-

Practice Worksheet

Evaluation Criteria	Yes	Needs Improvement
Appropriate Tool Selected	☐	☐
Digital Content Created	☐	☐
Good Layout	☐	☐
Attractive Color Theme	☐	☐
Proper Text and Images	☐	☐
Design Saved Successfully	☐	☐

Discussion Questions

1. Which AI tool did you use?
 2. Which feature was most helpful?
 3. How did AI improve your design process?
 4. Which type of digital content would you like to create in the future?
-

Teacher Observation Checklist

- ☒ Creates digital content successfully.
 - ☒ Uses AI features appropriately.
 - ☒ Demonstrates creativity.
 - ☒ Explains the design clearly.
-

Activity 3: Present Your Tool & Reflection (3 Minutes)

Objective

To help students explain their experience with AI-powered content creation tools and reflect on responsible and effective digital content creation.

Materials Required

- Completed Digital Design
 - Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Present your digital content in **1 minute**.
 2. Explain:
 - Tool used
 - Content created
 - AI features used
 - One challenge faced
 3. Complete the reflection worksheet.
 4. Share one ethical practice you followed.
-

Reflection Worksheet

Answer the following questions:

1. Which AI tool did you explore?

2. What type of digital content did you create?

3. Which AI feature helped you the most?

4. What new skill did you learn today?

5. Why is it important to use AI tools responsibly while creating digital content?

Self-Assessment Checklist

Skill	Yes	Needs Practice
I explored AI-powered digital content tools.	☐	☐
I created digital content using AI.	☐	☐
I compared different AI tools.	☐	☐
I understood the advantages of AI tools.	☐	☐
I practiced responsible digital content creation.	☐	☐

Teacher Observation Checklist

- ☒ Explains tool features confidently.
- ☒ Demonstrates digital creativity.
- ☒ Uses AI responsibly.
- ☒ Participates actively in the practical activity.

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Tool Exploration	20
Digital Content Creation	20
Creativity & Design Quality	20

Assessment Area	Marks
Tool Comparison & Understanding	20
Presentation, Reflection & Participation	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Explores multiple AI-powered digital content creation tools effectively.
 - ✓ Demonstrates the ability to create simple digital content using AI.
 - ✓ Compares features and identifies suitable tools for different content types.
 - ✓ Uses AI responsibly while respecting originality and ethical guidelines.
 - ✓ Presents findings confidently and actively participates in class discussions.
-

Practical Time Distribution

Activity	Duration
Explore Advanced Digital Content Creation Tools	4 Minutes
Create Sample Digital Content Using AI	3 Minutes
Present Tool & Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Explore and compare **AI-powered digital content creation tools** used in education and professional work.
- Create simple digital content such as **posters, presentations, infographics, and social media graphics** using AI tools.
- Identify the strengths and suitable applications of different AI design platforms.
- Demonstrate creativity by selecting appropriate layouts, colors, text, and visuals.
- Apply responsible and ethical practices while using AI-assisted design tools.
- Develop confidence in using modern digital content creation technologies for **academic projects, presentations, and creative communication**.
