

Chapter 3: Digital Content Creation

Class 18: Practical / Activities (10 Minutes)

Topic: Digital Content Creation Practice, Revision & Practical Assessment

Activity 1: Digital Content Creation Practice & Revision (4 Minutes)

Objective

To help students revise and apply all digital content creation skills learned in this chapter by creating different types of digital content using AI-powered tools and design principles.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Design Tools (Canva AI, Adobe Express, Microsoft Designer, Gamma AI, CapCut AI, ChatGPT, Google Gemini)
 - Student Practical Assessment Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open any AI-powered digital content creation tool.
2. Select **one topic** from the list below.
3. Create the following digital content:
 - One Professional Poster
 - One Educational Infographic
 - One Presentation Cover Slide
 - One 30–60 Second Educational Video (Storyboard or Draft)
4. Apply appropriate:

- Typography
 - Color Theme
 - Images/Icons
 - Visual Hierarchy
 - Layout
5. Review all content and make improvements.
 6. Save all completed work.

Suggested Topics

- Artificial Intelligence
- Climate Change
- Water Conservation
- Cyber Safety
- Renewable Energy
- Healthy Lifestyle
- Space Exploration
- Digital Citizenship
- Environmental Protection
- Smart Education

Student Practical Assessment Worksheet

Task	Completed (✓)
Topic Selected	☐
Poster Designed	☐
Infographic Created	☐
Presentation Cover Created	☐
Video Storyboard/Draft Completed	☐
Final Designs Reviewed	☐
All Files Saved	☐

Student Activity Checklist

Students should:

- ✓ Select one topic.

- ✓ Create multiple digital content formats.
 - ✓ Apply professional design principles.
 - ✓ Use AI tools effectively.
 - ✓ Review and improve all designs.
-

Teacher Observation Checklist

- ✓ Uses AI tools confidently.
 - ✓ Demonstrates creativity.
 - ✓ Applies visual communication principles.
 - ✓ Completes all practical tasks.
-

Activity 2: Practical Assessment & Design Evaluation (3 Minutes)

Objective

To assess students' ability to independently create and evaluate professional digital content using AI-powered tools.

Materials Required

- Completed Digital Content
 - Practical Assessment Sheet
 - Teacher Evaluation Sheet
-

Instructions

1. Review all created digital content.
 2. Check each design for:
 - Content Accuracy
 - Layout
 - Typography
 - Color Harmony
 - Image Quality
 - Visual Hierarchy
 3. Improve any weak areas.
 4. Submit the final digital content portfolio.
-

Digital Content Evaluation Worksheet

Evaluation Criteria	Yes Needs Improvement	
Attractive Design	☐	☐
Clear Information	☐	☐
Professional Layout	☐	☐
Good Typography	☐	☐
Consistent Color Theme	☐	☐
Effective Visual Communication	☐	☐

Discussion Questions

1. Which digital content type was the easiest to create?
 2. Which AI tool was the most useful?
 3. Which design principle improved your work the most?
 4. How can digital content be used in education and business?
-

Teacher Observation Checklist

- ✓ Evaluates digital content critically.
- ✓ Improves designs effectively.
- ✓ Demonstrates problem-solving skills.
- ✓ Participates actively.

Activity 3: Portfolio Presentation & Reflection (3 Minutes)

Objective

To help students present their digital content portfolio, explain their design process, and reflect on the knowledge and skills gained throughout the chapter.

Materials Required

- Digital Content Portfolio
 - Reflection Worksheet
 - Teacher Observation Sheet
-

Instructions

1. Present your digital content portfolio in **1–2 minutes**.
 2. Explain:
 - Topic selected
 - AI tools used
 - Digital content created
 - Design principles applied
 - Challenges faced
 3. Receive peer feedback.
 4. Complete the reflection worksheet.
 5. Suggest one skill you would like to improve in future digital content projects.
-

Reflection Worksheet

Answer the following questions:

1. Which digital content did you enjoy creating the most?

2. Which AI tool did you use most frequently?

3. Which design principle improved your content the most?

4. What new digital content creation skill did you learn in this chapter?

5. How will you use digital content creation skills in your future education or career?

Self-Assessment Checklist

Skill	Yes Needs Practice	
I created different types of digital content.	☐	☐
I used AI tools effectively.	☐	☐
I applied professional design principles.	☐	☐
I improved my work after reviewing it.	☐	☐
I presented my portfolio confidently.	☐	☐

Teacher Observation Checklist

- ☒ Explains digital content creation confidently.
- ☒ Demonstrates creativity and originality.
- ☒ Uses AI responsibly.
- ☒ Participates actively in presentation and peer review.

Mini Practical Assessment Rubric

Assessment Area	Marks
Digital Content Creation Skills	20
Design Quality & Visual Communication	20
Creativity & Innovation	20

Assessment Area	Marks
Use of AI Tools & Design Principles	20
Portfolio Presentation, Reflection & Participation	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Demonstrates proficiency in creating multiple forms of digital content using AI-powered tools.
 - ✓ Applies professional design principles, including layout, typography, color harmony, visual hierarchy, and effective use of visuals.
 - ✓ Reviews and refines digital content to improve quality, clarity, and audience engagement.
 - ✓ Uses AI ethically and responsibly while ensuring originality, accuracy, and copyright compliance.
 - ✓ Presents a well-organized digital content portfolio confidently and actively participates in evaluation and classroom discussions.
-

Practical Time Distribution

Activity	Duration
Digital Content Creation Practice & Revision	4 Minutes
Practical Assessment & Design Evaluation	3 Minutes
Portfolio Presentation & Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Demonstrate proficiency in creating **posters, infographics, presentations, and educational videos** using AI-powered digital content creation tools.
- Apply professional design principles such as **layout, typography, color harmony, visual hierarchy, consistency, and visual storytelling** across multiple content formats.

- Evaluate, improve, and organize digital content into a professional portfolio suitable for academic and practical use.
- Use AI tools responsibly while maintaining **accuracy, originality, copyright compliance, and ethical digital practices.**
- Present digital content confidently, receive constructive feedback, and reflect on areas for improvement.
- Demonstrate readiness for the **Chapter-End Digital Content Creation Challenge, Practical Assessment, and real-world applications in education, business, marketing, and digital media.**
