

Chapter 1: AI Productivity Tools

Class 4: Practical / Activities (10 Minutes)

Topic: Create a Study Plan or Presentation Outline

Activity 1: Create a Personalized Study Plan Using AI (4 Minutes)

Objective

To help students use an AI productivity tool to create a personalized daily or weekly study plan that improves time management, organization, and learning productivity.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Productivity Tool (ChatGPT, Google Gemini, Microsoft Copilot, etc.)
 - Study Plan Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open the AI productivity tool.
 2. Select your subjects for the week.
 3. Type a prompt asking the AI to create a study timetable.
 4. Read the AI-generated study plan.
 5. Modify the timetable based on your school schedule and personal study time.
 6. Write the final study plan in the worksheet.
-

Sample AI Prompts

- Create a daily study plan for a Class IX student studying for 2 hours.
 - Prepare a weekly study timetable including Mathematics, Science, English and Computer Science.
 - Suggest a balanced study schedule with revision and short breaks.
 - Create an exam preparation plan for the next seven days.
-

Study Plan Worksheet

Time	Subject / Activity
5:00 – 5:45 PM	_____
5:45 – 6:00 PM	Short Break
6:00 – 6:45 PM	_____
6:45 – 7:15 PM	Homework
7:15 – 7:45 PM	Revision

Student Activity Checklist

Students should:

- ✓ Write an effective AI prompt.
 - ✓ Generate a study timetable.
 - ✓ Customize the timetable.
 - ✓ Include revision time.
 - ✓ Include short breaks.
 - ✓ Save the final study plan.
-

Teacher Observation Checklist

- ✓ Uses AI effectively.
 - ✓ Creates an organized study plan.
 - ✓ Demonstrates good time management.
 - ✓ Completes the worksheet independently.
-

Activity 2: Create a Presentation Outline Using AI (3 Minutes)

Objective

To help students use AI to prepare a structured presentation outline for a classroom presentation.

Materials Required

- AI Productivity Tool
 - Presentation Outline Worksheet
 - Teacher Evaluation Sheet
-

Instructions

1. Select a presentation topic.
 2. Use AI to generate a presentation outline.
 3. Organize the outline into logical sections.
 4. Write the final outline in the worksheet.
-

Suggested Presentation Topics

- Artificial Intelligence
- Water Conservation
- Climate Change

- Renewable Energy
 - Healthy Lifestyle
 - Digital Safety
 - Space Exploration
 - Environmental Protection
-

Sample AI Prompt

"Create a 5-slide presentation outline on Artificial Intelligence for Class IX students."

Presentation Outline Worksheet

Slide	Content
Slide 1	Title, Name & Introduction
Slide 2	Topic Overview
Slide 3	Main Points
Slide 4	Examples / Images / Facts
Slide 5	Summary & Thank You

Discussion Questions

1. Why is planning important before creating a presentation?
 2. Which slide contains the main content?
 3. How does AI help organize presentation ideas?
 4. Why should presentations be short and clear?
-

Teacher Observation Checklist

- ☒ Creates a logical presentation outline.
- ☒ Uses AI suggestions effectively.
- ☒ Organizes ideas clearly.
- ☒ Completes the outline independently.

Activity 3: Review and Improve the AI Plan (3 Minutes)

Objective

To help students review AI-generated study plans and presentation outlines, identify improvements, and create a final personalized version.

Materials Required

- Completed Study Plan
 - Presentation Outline
 - Review Checklist
 - Teacher Observation Sheet
-

Instructions

1. Review the AI-generated study plan.
 2. Check whether the schedule is realistic.
 3. Review the presentation outline.
 4. Add or remove content where necessary.
 5. Prepare the final version for classroom use.
-

Student Tasks

Students should:

- ✓ Improve the study plan.
 - ✓ Improve the presentation outline.
 - ✓ Add missing information.
 - ✓ Remove unnecessary details.
 - ✓ Present the final version to the teacher.
-

Teacher Observation Checklist

- ✓ Reviews AI-generated content critically.
 - ✓ Makes meaningful improvements.
 - ✓ Demonstrates planning skills.
 - ✓ Uses AI responsibly.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Prompt Writing	20
Study Plan Preparation	20
Presentation Outline Creation	20
Review & Improvement	20
Participation & Organization	20

Assessment Area	Marks
Total	100 Marks

Teacher Observation Checklist

- ✓ Creates an effective study plan.
 - ✓ Organizes a professional presentation outline.
 - ✓ Uses AI suggestions appropriately.
 - ✓ Reviews and improves AI-generated content.
 - ✓ Participates actively throughout the activity.
-

Practical Time Distribution

Activity	Duration
Create a Personalized Study Plan Using AI	4 Minutes
Create a Presentation Outline Using AI	3 Minutes
Review and Improve the AI Plan	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Use AI productivity tools to create **personalized daily and weekly study plans**.
- Write effective AI prompts to generate organized study schedules and presentation outlines.
- Develop structured presentation outlines with clear titles, main points, examples, and conclusions.
- Review and improve AI-generated plans to make them practical and suitable for their learning needs.
- Apply time management, planning, and organizational skills for academic success.
- Demonstrate responsible AI usage by combining AI assistance with independent thinking, planning, and decision-making.
