

Chapter 1: AI Productivity Tools

Class 6: Practical / Activities (10 Minutes)

Topic: AI Productivity Practice, Revision & Practical Assessment

Activity 1: AI Productivity Skills Revision (4 Minutes)

Objective

To help students revise all the AI productivity skills learned in this chapter, including research, note-making, summarization, study planning, presentations, and responsible AI usage.

Materials Required

- Computer/Laptop or Tablet
 - Internet Connection
 - AI Productivity Tool (ChatGPT, Google Gemini, Microsoft Copilot, etc.)
 - Student Revision Worksheet
 - Notebook & Pen
 - Teacher Observation Sheet
-

Instructions

1. Open the AI productivity tool.
2. Select one topic from the revision list.
3. Complete the following AI productivity tasks:
 - Research the topic.
 - Generate five key points.
 - Summarize the topic.
 - Create a short study plan.
 - Prepare a simple presentation outline.
4. Save your work and review it.

Suggested Revision Topics

- Artificial Intelligence
 - Water Conservation
 - Climate Change
 - Renewable Energy
 - Digital Safety
 - Healthy Lifestyle
 - Space Exploration
 - Environmental Protection
-

Student Revision Worksheet

Task	Completed (✓)
AI Research	☐
Key Points Generated	☐
Summary Prepared	☐
Study Plan Created	☐
Presentation Outline Prepared	☐
Information Reviewed	☐

Student Activity Checklist

Students should:

- ✓ Research a topic using AI.
- ✓ Identify important points.
- ✓ Prepare a summary.
- ✓ Create a study plan.
- ✓ Prepare a presentation outline.
- ✓ Review all completed work.

Teacher Observation Checklist

- ✓ Completes all AI tasks.
 - ✓ Uses AI effectively.
 - ✓ Organizes information clearly.
 - ✓ Demonstrates independent learning.
-

Activity 2: AI Productivity Challenge (3 Minutes)

Objective

To assess students' ability to use multiple AI productivity features to complete an academic task within a limited time.

Materials Required

- AI Productivity Tool
 - Activity Sheet
 - Teacher Evaluation Sheet
-

Instructions

The teacher assigns one topic.

Students must complete the following tasks within **3 minutes**:

- Generate five important points.
- Write a short summary.
- Create three revision questions.
- Prepare a two-slide presentation outline.

Challenge Worksheet

Task	Student Response
Topic	_____
Five Key Points	_____
Summary	_____
Question 1	_____
Question 2	_____
Question 3	_____
Slide 1 Title	_____
Slide 2 Title	_____

Discussion Questions

1. Which AI task was the easiest?
 2. Which task required the most thinking?
 3. How did AI help you complete the activity faster?
 4. Why should AI-generated content always be reviewed?
-

Teacher Observation Checklist

- ☒ Completes the challenge within the given time.
 - ☒ Uses AI responsibly.
 - ☒ Produces accurate responses.
 - ☒ Participates confidently.
-

Activity 3: Practical Assessment & Self-Reflection (3 Minutes)

Objective

To evaluate students' understanding of AI productivity tools and encourage self-reflection on responsible AI use.

Materials Required

- Practical Assessment Sheet
 - Self-Assessment Checklist
 - Teacher Observation Sheet
-

Instructions

Students review their completed work and answer the following reflection questions.

Self-Assessment Checklist

Skill	Yes Needs Practice	
I can use an AI tool for research.	☐	☐
I can write a clear AI prompt.	☐	☐
I can summarize information using AI.	☐	☐
I can create a study plan using AI.	☐	☐
I can prepare a presentation outline.	☐	☐
I can verify AI-generated information.	☐	☐
I can use AI responsibly and safely.	☐	☐

Reflection Questions

1. Which AI productivity skill did you enjoy the most?
 2. Which skill do you need to improve?
 3. How will AI help you in your future studies?
 4. What is one responsible AI practice you will always follow?
-

Teacher Observation Checklist

- ☒ Demonstrates understanding of all chapter concepts.
- ☒ Reflects honestly on strengths and areas for improvement.

- ✓ Uses AI responsibly.
 - ✓ Completes the practical assessment independently.
-

Mini Practical Assessment Rubric

Assessment Area	Marks
AI Research & Information Gathering	20
Note-making & Summarization	20
Study Planning & Presentation Outline	20
Responsible AI Use & Fact Checking	20
Overall Participation & Practical Skills	20
Total	100 Marks

Teacher Observation Checklist

- ✓ Demonstrates all AI productivity skills confidently.
 - ✓ Uses AI tools effectively and responsibly.
 - ✓ Verifies information before using it.
 - ✓ Organizes work clearly and logically.
 - ✓ Participates actively throughout the assessment.
-

Practical Time Distribution

Activity	Duration
AI Productivity Skills Revision	4 Minutes
AI Productivity Challenge	3 Minutes
Practical Assessment & Self-Reflection	3 Minutes
Total Practical Time	10 Minutes

Expected Learning Outcomes

After completing these practical activities, students will be able to:

- Apply AI productivity tools for **research, note-making, summarization, study planning, and presentation preparation.**
- Write effective prompts to obtain useful and accurate AI-generated content.
- Organize, review, and improve AI-generated information for academic purposes.
- Demonstrate responsible AI practices by verifying facts, protecting personal information, and using AI ethically.
- Evaluate their own learning through self-assessment and identify areas for improvement.
- Confidently use AI as a learning assistant to improve productivity, critical thinking, and digital literacy in school and everyday learning.
